CONSIDERATION OF SENATE RESOLUTION NO. 96

Senate Resolution No. 96

Relating to the use of the Sonoma State Home for the custody of psychopathic delinquents

WHEREAS, Senate Concurrent Resolution No. 72 of the 1949 Session of the Legislature requested the Director of Mental Hygiene to investigate the situation existing at Sonoma State Home which had permitted several psychopathic delinquents to escape from said home and injure and murder several citizens of the State of California, and to ascertain and take such steps as might be necessary to make it impossible for any psychopathic delinquents to escape from said home; and

WHEREAS, Such resolution further requested the Director of Mental Hygiene, if he found that provision for maximum security at the Sonoma State Home was impossible or impractical, to designate some other state institution at which greater security could be provided for the commitment of psychopathic delinquents, and to transfer from Sonoma State Home such psychopathic delinquents to other state institutions; and

WHEREAS, After the adoption of such resolution, the Department of Mental Hygiene took steps to increase the security measures on portions of the premises of Sonoma State Home by building a security fence around Paxton and Goddard Halls and posting guards on gates in such fence, and that, further, the Director of Mental Hygiene did designate another state institution as the proper institution for the retention of psychopathic delinquents; and

WHEREAS, Since the imposition of such security measures, it has come to the attention of the Legislature that although security measures had been increased by the building of a fence, such fence is not presently guarded nor are the gates locked, and escapes from such home occur with regularity, and one such escape has resulted recently in the killing of a resident of Sutter County; and

WHEREAS, Until the recent publicity given to the taking of the life of the citizen of the State of California by an escaped patient of the Sonoma State Home, the Legislature was informed and believed that there were no longer any psychopathic delinquents held or maintained at such home; and

WHEREAS, The citizens of the State of California, and especially those living in the Valley of the Moon area and areas contiguous to the Sonoma State Home, are much aroused by the most recent escape and the possibility of future escapes and attendant dangers therewith, and are demanding that a stop be made to such escapes; now, therefore, be it

Resolved by the Senate of the State of California, That the Director of Mental Hygiene is respectfully requested to report to the Senate and the Legislature of the State of California the complete status of measures taken at the Sonoma State Home to increase the security of such home, and to report on the number of psychopathic delinquents kept or maintained at such home since the enactment of Senate Concurrent Resolution No. 72, above mentioned, together with the frequency of escapes from such institutions by both psychopathic delinquents and by mentally deficients and to report on the relative public dangers attendant upon escapes by both such classes of inmates; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the Governor, to the Director of Mental Hygiene, and to the Superintendent of the Sonoma State Hospital.

MOTION TO PRINT OPINION OF LEGISLATIVE COUNSEL

Senator Erhart moved that the following opinion of the Legislative Counsel regarding Senate Bill No. 331 be printed in the Journal.

Motion carried.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, April 13, 1955

Hon. A. A. Erhart
Senate Chamber

Tideland Grants—No. 9710

DEAR SENATOR ERHART: You have asked us whether any amendments to Senate Bill No. 331, as amended in Senate March 17, 1955, are necessary in view of the recent decision of the California Supreme Court in *Mallon* v. *City of Long Beach*.

In our opinion, this case does not necessitate the making of any amendments to the bill.

The bill would convey to the Port San Luis Harbor District all right, title and interest held by the State by virtue of its sovereignty, in and to certain described lands, salt marsh, tidelands, submerged lands, and swamp and overflowed lands, to be held in trust for specified uses and purposes and upon certain express conditions. The bill would

reserve in the State all mineral rights in the lands conveyed. This is the usual type of grant of state-owned tide and submerged lands which have been made to cities, counties, and districts.

The case of *Mallon* v. *City of Long Beach* (1955) 44 A.C. , involved the effect of Chapter 915 of the Statutes of 1951. Chapter 915 freed a portion of the revenues accruing from the production of oil and gas from tide and submerged lands previously conveyed to the City of Long Beach in trust, from the trust. The court held (1) this partial freeing of such tide and submerged land revenues was valid; (2) the revenue so freed belongs to the State and not to the city because to interpret the chapter as vesting such revenues in the city free of the trust would render the chapter invalid as a gift to a municipal corporation in violation of Section 31 of Article IV of the State Constitution.

The bill makes the conveyance subject to the trust. Therefore, no question of invalid gifts is presented. In the *Mallon* case, the California Supreme Court expressly upheld such grants as the one which would be made by Senate Bill 331:

> "Although the question of gift has never been directly discussed in any of the cases, it is clear that grants in trust of tide and submerged lands to municipal corporations have been made in furtherance of the interest of the entire state in the development of its harbors and thus such grants do not violate the constitutional prohibitions against gifts."

The bill does contain a provision expressly granting to the district the rents accruing from certain leases. However, the revenues accruing therefrom are also subject to the trusts, uses, and conditions under which the district would hold these lands (*City of Long Beach* v. *Morse*, 31 Cal. 2d 254). Therefore, this provision does not present any question as to invalid gifts.

Therefore, in our opinion, the *Mallon* decision does not necessitate any amendment being made to the bill.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By OWEN K. KUNS, Deputy

Amendment No. 2

On page 1 of the printed bill, following line 20, insert

"SEC. 2. Section 1269b of the Penal Code is amended to read:

1269b. In a municipal court, the clerk of the court shall, in the absence of a judge of said court, have authority to accept bail for the appearance before said court of any defendant charged in such court with a misdemeanor; *provided, however, that whenever a defendant has been arrested and booked for having committed a misdemeanor and is held in custody in a county jail or a city jail, the clerk of the municipal court in the judicial district wherein the defendant was arrested and booked, may, prior to the filing of a formal complaint, accept bail for the appearance before said court;* provided, *however*, the amount thereof, *in either event*, shall be in accordance with a schedule of bail [in such cases] previously fixed and approved by the judges of said court, unless a warrant shall have been issued for the arrest of the

defendant, in which case the bail shall be in the amount fixed in the warrant; and provided, also, the bail shall be cash or a surety bond executed by a certified, admitted surety insurer as provided in the Insurance Code of the State of California.

The authority to accept bail as in this section provided, shall include authority to approve the same, to issue and sign an order for the release of the defendant, and to set a time and place for the appearance of the defendant before the appropriate division or judge of such court and give the defendant notice thereof.

SEC. 3. Section 1295 of the Penal Code is amended to read:

1295. The defendant, or any other person, at any time after an order admitting defendant to bail *or after the arrest and booking of a defendant for having committed a misdemeanor*, instead of giving bail may deposit with the clerk of the court in which the defendant is held to answer *or notified to appear for arraignment*, the sum mentioned in the order, *or if no order, in the schedule of bail previously fixed by the judges of said court*, and upon delivering to the officer in whose custody defendant is a certificate of the deposit, defendant must be discharged from custody.

Whenever the defendant has been arrested and booked *for having committed a misdemeanor for which the amount of bail has been fixed in a schedule of bail by the judges of the court having jurisdiction*, [and] *or* the amount of bail *is* endorsed on the warrant *of arrest* [or fixed by order of the court] *and* does not exceed one thousand dollars ($1,000), the defendant, or any other person, may deposit with the officer in charge of the jail wherein the defendant is detained, cash in the amount of the bail [indorsed on such warrant or fixed by the order of the court] *so fixed*. Upon such deposit being made the defendant [must be] *shall be notified of the time and place to appear for arraignment and* discharged from custody. The money so deposited shall be transmitted to the judge or clerk of the court *wherein the defendant is notified to appear for arraignment or* by which the warrant was issued not later than the next business day.

SEC. 4. Section 72301 of the Government Code is amended to read:

72301. The clerk of the court or one or more deputy clerks shall be in attendance at the department at all hours of the day and night, including Sundays and holidays, and may fix and accept bail for the appearance before the court of any defendant charged in the court with an offense of which the court has jurisdiction *or whenever a defendant has been arrested and booked within the territorial limits of said judicial district for having committed a misdemeanor*. The amount of bail shall be pursuant to a schedule of bail in such cases previously fixed and approved by the judges of the court at their annual meeting. If a warrant has been issued for the arrest of the defendant, the bail shall be in the amount fixed in the warrant. The bail shall be cash, negotiable United States Treasury bonds, or a surety bond executed by a certified, admitted surety insurer as provided in the Insurance Code.

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 1269b of the Penal Code at present provides that a clerk of a municipal court has authority, in the absence of a judge of the court, to accept bail for the appearance before said court of any defendant *charged in such court* with a misdemeanor. It has been the practice to admit most misdemeanors to bail within a few hours after arrest and before the filing of a complaint. However, the Los Angeles County Counsel has recently advised, and the interpretation appears correct, that in view of the italicized language above, Section 1269b does not grant authority to admit to bail until after a complaint has been filed.

As so interpreted Section 1269b would impose a staggering burden on our already overcrowded jails. In the City of Los Angeles alone, there were 148,662 misdemeanor arrests last year. This bill would relieve this situation by making it clear that a misdemeanant cant be admitted to bail, under the conditions prescribed by Section 1269b, at any time after arrest."

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Judiciary.

Hon. Hugh M. Burns
Acting President pro Tempore

DEAR MR. PRESIDENT: Today is the eighty-third calendar day, leaving, counting today, 38 calendar days. If we do not meet on Saturdays or Sundays, we will have only 28 days.

Thus far this session, we have sent to enrollment 634 bills. On the corresponding day of 1953 we had sent to enrollment 756 bills. Proceeding on the assumption that we will pass as many bills this session as we did last (2,330), we will have to dispose of an average of 61 per day in order to complete our work on June 8th, the 120 day of the session.

Last week was our best week in the matter of measures disposed of. We acted on a total of 177 measures in five days or an average of 35 per day.

Respectfully submitted,

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 766:

STATE OF CALIFORNIA, GOVERNOR'S OFICE
SACRAMENTO, April 26, 1955

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 766, "An act making an appropriation for construction and equipment of state public works, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates additional funds in augmentation of Item 393 of the Budget Act of 1953 for the construction of a medical science addition to the University of California in San Francisco. This item is necessary because the cost of construction is greater than was anticipated and in order to proceed with the building the additional appropriation must be made at this time.

I therefore recommend consideration of Senate Bill No. 766 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 154:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 4, 1955

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Assembly Bill No. 154, "An act making an appropriation to the University of California for air pollution research, to take effect immediately."

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

The money heretofore made available for the University for its research on air pollution is exhausted and it is necessary that this appropriation measure be passed without delay in order that the research can continue without interruption.

It is desirable that this measure be enacted early in the session, and I therefore recommend its consideration before final action on the budget.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

DEPARTMENT OF THE NAVY, OFFICE OF THE SECRETARY
WASHINGTON, D. C., April 25, 1955

Mr. J. A. Beek, Secretary
Senate, California Legislature
Sacramento 14, California

DEAR MR. BEEK: This is in further reply to your letter of April 5, 1955, regarding the closing of the Naval Supply Depot, San Pedro, California, which was acknowledged by Rear Admiral R. J. Arnold, SC, U.S.N.; Chief of the Bureau of Supplies and Accounts.

The resolution enclosed in your letter requested reconsideration of the decision to close the depot. The decision to close the depot followed the decision to consolidate supply and fiscal operations in the Long Beach-San Pedro area. It was made only after thorough, careful consideration of the factors involved. In reviewing the supply and fiscal operations in the Long Beach-San Pedro area, there were areas in which significant savings could be realized. For example, the annual rental for depot waterfront facilities could be sharply reduced. Duplication of supply functions and stocks of material at the depot and the Long Beach Shipyard could be eliminated. The supply administrative "overhead" existing at these two activities could be reduced. All these savings are possible through consolidation of operations, while at the same time maintaining the present level of service to supported activities.

I regret the adverse affect which the depot's closing may have; however, I feel that the consolidation must be made in the over-all best interest of the Nation.

If I can be of further assistance to you in this matter, I shall be happy to do so.

Sincerely yours,

R. H. FOGLER
Assistant Secretary of the Navy (Material)

LETTER OF TRANSMITTAL

SENATE INTERIM COMMITTEE ON
HIGHWAYS, STREETS AND BRIDGES
SACRAMENTO, April 22, 1955

Hon. Harold J. Powers, President
and Members of the Senate

GENTLEMEN: Pursuant to Senate Resolution No. 32, read and adopted by the Senate on January 16, 1953, at the 1953 Regular Session of the Legislature, the Senate Interim Committee on Highways, Streets and Bridges herewith submits a report with findings and recommendations pertaining to county road and city street deficiencies in California. This report also contains specific information on the total cost of improvements necessary to correct the deficiencies on the state highways, county roads and city streets in each of the 58 counties of California.

This report on county road and city street deficiencies is an essential step in obtaining information necessary for the orderly planning, development and integration of an adequate system of highways and thoroughfares throughout the State. This committee recognizes that it is essential that road needs and problems of both cities and counties merit the same attention given to state highways and it is the intent of this committee to continue to give its attention to these vital components of a state-wide system of adequate highway facilities in keeping with the growth of this State.

In addition, special emphasis has been placed on the use of funds for road and street improvement by both counties and cities because of the direct relationship that exists between deficiencies and the manner in which available funds are expended by these local governmental organizations.

This survey of county road and city street deficiencies was conducted by J. L. Jacobs & Company, Management Consultants and Engineers, of Chicago.

We wish to acknowledge our indebtedness and express our appreciation to the Advisory Committee of County Road Commissioners, Mr. Wallace Boggs, Alameda, Chairman; Mr. Sam Kennedy, Los Angeles; Mr. Arthur Kiefer, Sacramento; Mr. Carl Lind, Fresno; Mr. J. H. Mack, San Diego; Mr. Julius Manthey, San Joaquin; Mr. Bert Paxton, Butte; Mr. Marshall Wallace, Sonoma; and to the Advisory Committee of City Officials, Mr. O. W. MOTION TO PRINT ANALYSIS OF LEGISLATIVE COUNSEL ON SENATE BILL NO. 1659 IN THE JOURNAL

Senator J. Howard Williams moved that the following analysis of the Legislative Counsel on Senate Bill No. 1659 be printed in the Journal.

Motion carried.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 4, 1955

Analysis of Senate Bill No. 1659, as Amended in Senate May 2, 1955, Creating a Department of Water Resources and a Water Rights Administration—No. 10771

Senate Bill No. 1659, as amended in the Senate May 2, 1955, would create two separate state agencies, a Department of Water Resources and a Water Rights Administration.

A. *Department of Water Resources*

The Department of Water Resources is governed by a newly created seven-man State Water Board which is appointed by the Governor, subject to confirmation of the Senate (Sec. 115)*. The terms of the members first appointed would expire, two on January 15, 1957, two on January 15, 1958, and three on January 15, 1959, thus staggering the terms of the members (Sec. 117). Thereafter their terms would be for four years (Sec. 118). The members would be selected on the basis of their general educational and business qualifications and proven accomplishments in their fields. More specifically, members would be appointed to provide at all times:

(1) At least two members with five or more years experience in the field of municipal water supply;

(2) Two members with five or more years experience in the field of agricultural water supply; and

(3) One member with five or more years experience in the field of hydroelectric power development and distribution. (Sec. 116.)

Members would be appointed so as to afford representation on the board from all parts of the State, one to be appointed from the State at large and not more than one member would be appointed from any one congressional district nor from any one county (Sec. 116).

One member would be designated by the Governor as chairman who would serve full time at an annual salary of $18,000 and who would represent the department on the Governor's Council (Sec. 123 Wat. C. and Sec. 12040 Gov. C.). The other members of the board would receive $75 for each day that they are engaged in the performance of their duties. All members would be reimbursed for their expenses in addition to the compensation (Sec. 120).

The board would establish general policies and prescribe rules and regulations to govern the department (Sec. 125), and would serve as an appellate board to decide any question as to any action, ruling, order or decision of the department raised by any affected person (Sec. 130). It would administer the department by and through an executive officer who (if the Legislature's request is followed) would be exempt from civil service (Sec. 136). The salary of the executive officer would be $15,000 (Sec. 136).

The work of the department would be divided into at least two divisions, a Division of Planning and a Division of Construction, Operation and Maintenance (Sec. 139).

The department would be given those powers that are now vested in the State Water Resources Board (Secs. 111, 12572) which would be abolished.

The department would be given those powers that are now vested in the Water Project Authority (Sec. 111, 11101) which would be abolished.

The new department would also succeed to the functions of the present Division of Water Resources (Sec. 111) except for the functions vested in the Water Rights Administration. In addition, it would be granted the power to act in case of emergencies in the same manner as the Department of Public Works is now authorized (Sec. 370).

The department would be authorized to employ legal counsel other than the Attorney General (Sec. 11041, Gov. C.)

* All section references are to sections of the Water Code except as otherwise specified.

B. *Water Rights Administration*

As indicated above, the Water Rights Administration would be a separate state agency (Sec. 1020). It would be under the control of an officer known as the State Water Administrator who, (if the request of the Legislature was observed), would be selected under the State Civil Service Act (Secs. 1022, 1023).

The administration would succeed to the following powers now vested in the Division of Water Resources:

(1) Appropriation of water (Secs. 1000, 1021);
(2) Determination of water rights (Secs. 1000, 1021);
(3) Supervision of watermaster services (Secs. 1021, 4003);
(4) Proceedings to prevent waste or unreasonable use (Sec. 4675);
(5) Regulation of artesian wells (Secs. 4700-4711);
(6) Regulating of rain making (Secs. 4900-4915);
(7) Supervision of dams (Secs. 6001, 6050).

The administration would be authorized to employ legal counsel other than the Attorney General (Sec. 11041, Gov. C.).

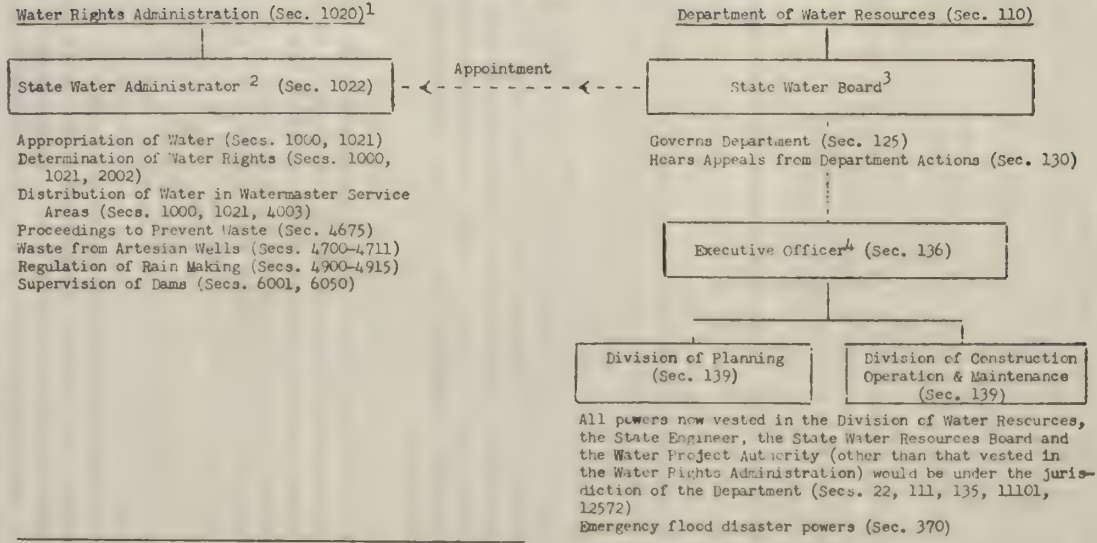
C. *General*

The bill also includes numerous other provisions to effectuate its purpose such as providing for the transfer of previously appropriated funds, transfer of personnel, and other provisions normally incorporated in bills creating such agencies.

Insofar as we are aware, the bill contains but one provision that might be considered substantive. That provision is a declaration of legislative policy which is included in Section 11127 to the effect that it is the intention of the Legislature that to the extent feasible, local agencies of the State shall construct, operate or maintain the several portions of any general coordinated plan for the development of the water resources of the State.

D. *Summary*

To summarize, the bill would create two separate state agencies. One would be the *Department of Water Resources* which would be headed by a seven-man board, appointed by the Governor. This board would govern the department by and through an executive officer.



The other agency would be a *State Water Administration* which would be headed by an administrator who would be appointed by the board. This would be the only connection between the agencies.

The Water Project Authority and the State Water Resources Board would be dissolved and their functions transferred to the department. The Division of Water Resources would also be abolished and its functions split between the department and the administration.

Generally speaking, the functions transferred to the administration would be those dealing with water rights, that is, the appropriation and determination of water rights, the supervision of watermaster services, proceedings to prevent waste and unreasonable use of water, and regulation of rain making. The administration would also succeed to the functions relative to supervision of dams.

1540.5. If the powers of attorney or the contract between the exchange and the attorney in fact, if any, do not provide otherwise:

(a) And the exchange has a governing body, the governing body shall by resolution adopt a plan for merger or discontinuing the business of the exchange. The vote of a majority of such of the members of the governing body as are not agents, employees or shareholders of the attorney in fact shall be necessary for the adoption of the resolution and plan.

(b) And the exchange has no governing body, the attorney in fact shall prepare the plan.

1540.7. The plan referred to in Section 1540.5 shall be submitted to the commissioner for approval. The commissioner shall approve the plan if he finds that:

(b) It is not in conflict with the rights of the subscribers as set forth in their powers of attorney or any contract between the exchange and the attorney.

(c) It makes adequate provision for the discharge of liabilities of the exchange.

(d) In the event of a merger, it is not inequitable to all subscribers.

(e) The attorney in fact has approved the plan.

1541. Upon approval of the plan by the commissioner, the attorney in fact shall mail to all subscribers, who have policies in force on the date that the plan was approved by the commissioner, at their addresses as shown by the records of the exchange:

(a) A copy of the plan.

(b) A certificate by which the reinsurer, or in the case of a merger, the surviving exchange, if any, assumes the liabilities of the exchange on its policies and, if such be the case, all other liabilities of the exchange, conditioned only upon approval of the plan by the subscribers and not by the surviving exchange.

1541.3. The plan shall be deemed approved by the subscribers, either (1) if a majority of the subscribers approve it by ballots returned to the attorney in fact within the time prescribed therein, or (2) if a majority of the subscribers present in person or by proxy at the meeting called for the purpose of approving or disapproving the plan vote in favor of it.

1541.5. The exclusive remedy of any subscriber, who deems himself aggrieved by the adoption of the plan or its application to him, is the filing of a complaint in the superior court of the county in which is located the principal office of the attorney in

fact, which complaint shall pray for the court to determine the value of his interests in the exchange. 1541.7. Unless the powers of attorney or the contract between the exchange and the attorney in fact provide otherwise, only subscribers who have policies in force on the date the plan is approved by the commissioner, shall be eligible to approve or disapprove the plan or be entitled to participate in any distribution of assets under the plan.

1542. Unless the powers of attorney or the contract between the attorney in fact and the exchange provide otherwise:

(a) The right of each subscriber who is eligible to participate in any distribution of the assets of the exchange shall be based upon the relationship of the premiums earned upon his policies to the premiums earned upon the policies of all subscribers who are entitled to participate in such distribution within a period to be specified in the plan not to exceed two years prior to the date fixed by the plan for the discontinuance of the business of the exchange.

(b) The earned premiums shall be the actual earned premiums or the plan may provide that they shall be computed on the assumption that all policies having effective dates during a calendar month become effective at the middle of the month.

(c) And if the reinsurer is to assume all liabilities of the exchange, such liabilities shall be revalued at the expiration of a period to be fixed by the plan of not less than three years after the effective date of the reinsurance and assumption and such revaluation shall become final upon approval thereof by the commissioner.

(d) In the case of discontinuance of business, the subscribers shall be entitled to all assets of the exchange, less all liabilities including any liability in respect of contributed surplus whether or not such liability is contingent or fixed, after providing for the cost of running off the business of the exchange and the payment of dividends in accordance with policy provisions.

(e) Upon merger of exchanges pursuant to this article, the separate existence of the constituent exchanges ceases, except that of the surviving exchange in the case of merger, and the surviving exchange shall succeed, without other transfer, to all the rights and property of each of the constituent exchanges, and shall be subject to all the debts and liabilities of each, in the same manner as if the surviving exchange had itself incurred them.

(f) All rights of subscribers and creditors and all liens upon the property of each of the constituent exchanges shall be preserved unimpaired, limited in lien to the property affected by such liens immediately prior to the time of the merger.

(g) Any action on proceedings pending by or against any constituent exchange may be prosecuted to judgment, which shall bind the surviving exchange, or the surviving exchange may be proceeded against or substituted in its place.

(h) The surplus appearing on the books of the constituent exchanges may be entered as free or general surplus on the books of the surviving exchange, and may be thereafter dealt with as such.

(i) Article 17, Chapter 1, Part 2, Division 1, of the Insurance Code, is not applicable to any transaction pursuant to any plan which complies with this article."

Consideration of Committee Amendments

The following amendments were proposed by the Committee on Judiciary:

PRINTER'S NOTE—There being no 7-point strikeout type available, the material which should appear in strikeout type in the following amendment is indicated by being enclosed within brackets.

Amendment No. 1

On page 3 of the printed bill, strike out line 28, and insert

690.26. (1) If the property mentioned in Sections 690.1 to 690.25, inclusive, shall be levied upon under writ of attachment or execution, the defendant or judgment debtor (herein referred to as "the debtor"), in order to avail himself of his exemption rights as to such property, shall deliver to the levying officer an affidavit of himself or his agent, together with a copy thereof, alleging that the property levied upon, identifying it, is exempt, specifying the sections or sections of this code on which he relies for his claim to exemption, and all facts necessary to support his claim, and also stating therein his address within this State for the purpose of permitting service by mail upon him of the counter-affidavit and any notice of the motion herein provided.

[(2) When an affidavit of exemption is filed in accord with Section 690.11, the debtor shall be entitled to an immediate release of one-half of his earnings earned within 30 days next preceding the date of levy.]

[(3)] *(2)* Forthwith upon receiving the affidavit of exemption the levying officer shall serve upon the plaintiff or the person in whose favor the writ runs (herein referred to as "the creditor"), either personally or by mail, a copy of the affidavit of exemption, together with a writing, signed by the levying officer, stating that the claim to exemption has been received and that the officer will release the property unless he receives from the creditor a counter-affidavit within five days after service of such writing.

[(4)] *(3)* If the creditor desires to contest the claim to exemption, he shall within such period of five days, file with the levying officer a counter-affidavit alleging that the property is not exempt within the meaning of the section or sections relied upon, or if the claim to exemption be based on Sections 690.1, 690.3, 690.6, 690.8, 690.9, 690.12, 690.17, 690.18, 690.21, 690.24, alleging that the value of the property claimed to be exempt is in excess of the value stated in the applicable section or sections, together with proof of service of a copy of such counter-affidavit upon the debtor.

[(5)] *(4)* If no such counter-affidavit, with such proof of service, is so filed with the levying officer within the time allowed, the officer shall forthwith release the property.

[(6)] *(5)* If such counter-affidavit, with such proof of service, is so filed, either the creditor or the debtor shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the claim to exemption, or the value of the property claimed to be exempt. Such hearing must be granted by the court upon motion of either party made within five days after the counter-affidavit is filed with the levying officer, and such hearing must be had within 15 days from the date of the making of such motion unless continued by the court for good cause. The party making the motion for hearing must give not less than five days' notice in writing of such hearing to the levying officer and to the other party and specify therein that the hearing is for the purpose of determining the claim to exemption. The notice may be of motion or of hearing and upon the filing of the notice with the clerk of court, the motion is deemed made.

[(7)] *(6)* If neither party makes such motion within the time allowed, the levying officer shall forthwith release the property to the debtor.

[(8)] *(7)* At any time while the proceedings are pending, upon motion of either party or upon its own motion, the court may (a) order the sale of any perishable property held by such officer and direct disposition of the proceeds of such sale; and (b) make such other orders as may be proper under the particular circumstances of the case. Any orders so made may be modified or vacated by the court or judge granting the same, or by the court in which the proceedings are pending, at any time during the pendency of the proceedings, upon such terms as may be just.

[(9)] *(8)* The levying officer in all cases shall retain physical possession of the property levied upon if it be capable of physical possession, or in the case of property not capable of physical possession, the levy shall remain in full force and effect, pending the final determination of the claim to exemption; provided, however, that no sale under execution shall be had prior to such final determination unless an order of the court hearing the claim for exemption shall so provide.

[(10)] *(9)* At such hearing, the party claiming the exemption shall have the burden of proof. The affidavits and counter-affidavits shall be filed by the levying officer with the court and shall constitute the pleadings, subject to the power of the court to permit an amendment in the interests of justice. The affidavit of exemption shall be deemed controverted by the counter-affidavit and both shall be received in evidence. Nothing herein contained shall be construed to deprive anybody of the right to a jury trial in any case where by the Constitution such right is given, but a jury trial shall be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury, and no evidence other than the affidavit and counter-affidavit is offered, the court if satisfied that sufficient facts are shown thereby, may make its determination thereon; otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits and counter-affidavits. At the conclusion of the hearing, the court shall give judgment determining whether the claim to exemption shall be allowed or not, which judgment shall be determinative as to the right of the creditor to have the property taken and held by the officer or to subject the property to payment or other satisfaction of his judgment. In such judgment the court shall make all proper orders for the disposition of such property or the proceeds thereof.

[(11)] *(10)* A copy of any judgment entered in the trial court shall be forthwith transmitted by the clerk to the levying officer in order to permit such officer to either release the property attached or to continue to hold it or sell it, in accordance with the provisions of the writ previously delivered to him. Such officer, unless an appeal from the judgment be waived, or the judgment has otherwise become final, shall continue to hold such property under attachment or execution, continuing the sale of any property held under execution until such judgment becomes final.

[(12)] *(11)* When any documents required hereunder are served by mail, the provisions of this code relating to service by mail shall be applicable thereto.

[(13)] *(12)* Whenever the time allowed for an act to be done hereunder is extended by the court, written notice thereof shall be given promptly to the opposing party, unless such notice be waived, and to the levying officer.

[(14)] *(13)* An appeal lies from any judgment under this section; such appeal to be taken in the manner provided for appeals in the court in which the proceeding is had."

SEC. 9. This act is an urgency measure, necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The present law is not sufficiently clear as to the effect of terminating an annexation proceeding prior to protest hearing when such termination becomes necessary due to procedural irregularities or defects. Numerous persons are in grave doubt concerning the effect of certain terminations of annexation proceedings. Until specific authority to terminate the defective or outmoded proceedings and institute new proceedings is granted by the Legislature, the uncertainty of the present law will delay or prohibit the benefits of annexation to many persons. Such delays, in addition to creating uncertainties for the residents of areas which are the subject of annexation proceedings, also create uncertainties in the minds of those persons whose investments in real property make possible the expansion and development of the annexed areas. It is therefore necessary that the Legislature resolve the doubts that have arisen as soon as possible so that the furnishing of municipal services necessary for the preservation of the public health and safety and the orderly development of property which is the subject of annexation proceedings may proceed immediately."

Amendment No. 3

On page 1, between lines 2 and 3, insert

"SEC. 1.1. It is hereby declared to be the policy of the State of California to develop [interurban] *mass* rapid transit systems in the various metropolitan areas within the State for the benefit of the people. A necessity exists within [a portion of] Los Angeles County, *Orange County and those portions of San Bernardino and Riverside Counties which lie west of 117° West Longitude and south of 34° 30' North Latitude (hereinafter sometimes called "metropolitan area")* for such a system. Because of the numerous separate municipal corporations and unincorporated populated areas in [that portion of Los Angeles County within the area of the entire San Fernando Valley west of the west boundary of the City of Glendale, and within four (4) miles on each side of the main channel of the Los Angeles River from San Fernando Valley to the mouth of the river at Long Beach] *the metropolitan area hereinbefore described*, only a specially created authority can operate [freely] *effectively* in said [portion of that county] *metropolitan area*. Because of the unique problem presented by that [portion of the county] *metropolitan area* and the facts and circumstances relative to the establishment of [an interurban] *a mass* rapid transit system therein, the adoption of a special act and the creation of a special authority is required.

SEC. 2. Section 2.6 of said act is amended to read:

Sec. 2.6. ["County" means Los Angeles County, State of California, the boundaries of which are established by Section 23119 of the Government Code of the State of California.] *"Metropolitan area" means the area described in the second sentence of Section 1.1 of this act.*

SEC. 3. Section 2.7 of said act is amended to read:

Sec. 2.7. "*Mass* [Rapid] *rapid* transit" means transportation of passengers, mail and hand baggage [in, through or between any two or more municipal corporations or unincorporated populated areas or municipal corporations and unincorporated populated areas,] within the *metropolitan* area [of the entire San Fernando Valley west of the west boundary of the City of Glendale, and within four (4) miles on each side of the main channel of the Los Angeles River from San Fernando Valley to the mouth of the river at Long Beach,] by means of [suspended overhead monorail on routes which the California Public Utilities Commission has first determined are required by public convenience and necessity, together with any supplemental feeder bus lines which established common carriers of passengers serving the area decline to provide after that commission has determined they are required by public

convenience and necessity] *motor bus, trolley coach, street railway, rail, suspended overhead monorail, elevated railway, subway, or any other surface, overhead or underground transportation or any combination thereof; provided, however, that the words "mass rapid transit" shall not be construed to include any service in Orange, Riverside and San Bernardino Counties except interurban service, and the authority is authorized to provide only interurban service in said three counties.*

"Interurban" as used in this act shall mean transportation in, through or between any two or more municipal corporations or unincorporated areas or a municipal corporation or corporations and an unincorporated area or areas.

SEC. 4. Section 2.8 of said act is amended to read:

Sec. 2.8. "System" means all real and personal property [, licenses, franchises, patents, rights and interests] *of every kind and nature whatsoever* owned or held *at any time* [or to be owned or held] by the authority for *mass* rapid transit, *including (without limiting the generality of the foregoing) rights of way, rail lines, bus lines, stations, platforms, terminals, structures, rolling stock, equipment, and facilities (including parking and other facilities necessary or convenient for access of persons and vehicles to stations, terminals, yards, control houses, cars, buses, signals and stations).*

"Existing system" means all real and personal property of every kind and nature whatsoever, owned or held by any person other than the authority for mass rapid transit, including (without limiting the generality of the foregoing) licenses, franchises, patents, rights and interests.

SEC. 5. Section 2.14 of said act is repealed.

SEC. 6. Section 3.2 of said act is amended to read:

Sec. 3.2. The authority is a public *agency and a public* corporation of the State of California. [The authority in all respects shall be subject to the same regulations, restrictions and restraints as if it were a privately owned and operated carrier and shall be subject to the jurisdiction of the Public Utilities Commission and all other laws applicable to privately-owned and operated carriers.]

SEC. 7. Section 3.3 of said act is amended to read:

Sec. 3.3. [The powers and activities of the authority are limited to the county.] *The powers and jurisdiction of the authority to maintain and operate mass rapid transit are limited to the metropolitan area.* The territorial limits of the authority shall not be diminished or decreased so long as any bonds issued under this act are outstanding and unpaid. *Bonds shall not be deemed outstanding within the meaning of this section if moneys sufficient to pay the same and all interest thereon have been set aside irrevocably in a special or trust fund for that purpose and the indenture under which such bonds were issued provides that such bonds shall not be deemed to be outstanding in such event.*

SEC. 8. Section 3.5 of said act is amended to read:

Sec. 3.5. Each member of the authority shall be, and shall hold office only so long as he is, a resident of and registered voter in the [county] *metropolitan area.* Each member of the authority shall be paid the sum of [twenty] *fifty* dollars [($20)] *($50)* for each meeting attended, but not to exceed [one] *two* hundred dollars [($100)] *($200)* in any calendar month, and shall be reimbursed for actual necessary traveling and other expenses incurred by him in the performance of his duties, payable exclusively out of the funds of the authority available therefor. No member of the authority shall be allowed any other fees, perquisites or emoluments, reward or compensation for his services as a member of the authority.

SEC. 9. Section 3.6 of said act is amended to read:

Sec. 3.6. *(a)* The authority shall appoint a chairman, who shall be a member of the authority, and shall also appoint a secretary and a treasurer. *The authority may also appoint a vice chairman from its members, said vice chairman to act as chairman in the absence or inability of the chairman.* The secretary may be a member of the authority. The treasurer shall not be a member of the authority [and shall not be engaged in any other business or employment during his tenure of office]. The authority may appoint [a general manager] *an executive director*, who may be a member of the authority, and who shall be a man of recognized ability and experience, to hold office during the pleasure of the authority. *Subject to the general control of the authority, to the requirements and restrictions of any indenture under which bonds are at any time outstanding, and to the provisions of any contract for superintendence as authorized by subdivision (b) of this Section 3.6, the executive director* [The general manager] shall have management of the properties and business of the authority and the employees thereof, [subject to the general control of the authority,] shall direct the enforcement of all resolutions, rules and regulations of the authority, and shall perform such other duties as may be prescribed from time to time by the authority. The authority may appoint a general attorney and a chief engineer, and shall *appoint or* provide for the appointment of other officers, attorneys, engineers, consultants, agents and employees as may be necessary for *any purpose of the authority, including, but not limited to, engineering and other studies and* the *acquisition*, construction, extension, operation, maintenance, and

policing of the system, *and may contract with any thereof and with the executive director, but no such contract shall be for a term of longer than 10 years.* It shall define their duties and require bonds of such of them as the authority may designate. The compensation of the [general manager] *executive director*, general attorney, chief engineer, and all other officers, attorneys, consultants, agents and employees shall be fixed by the authority, and such compensation shall be paid out of funds of the authority available for that purpose. The authority may employ a fiscal agent or adviser and may retain the services of such agents as may be deemed advisable to assist in the sale and distribution of the authority's bonds or the underwriting thereof.

(b) The authority may make a contract for superintendence with any corporation (sometimes in this act referred to as the superintending corporation) which has executive personnel with experience and skill applicable to the superintendence of the operation and maintenance of any part of the system for the furnishing of its services and the services of experienced and qualified personnel for the superintendence of the operation and maintenance of the system or any part thereof, including, without limiting the generality of the foregoing, superintendence over personnel, purchases, properties and operations and matters relating thereto, and any revenue bond indenture may require such contract. The personnel whose services are so furnished under such contract shall not include the executive director or general attorney. No such contract shall extend beyond the term of ten years or such longer time as there are outstanding any revenue bonds under an indenture which requires such contract. In any such contract with a corporation for superintending services, the duties of such corporation shall be designated. The compensation of such corporation for services rendered under such contract shall be such as is provided therein and, without limiting the generality of the foregoing, such compensation may be in fixed amounts or may be related to revenues of the system or some portion or portions thereof. Neither such contract, nor the corporation which is a party thereto with respect to its rights and duties thereunder, shall be subject to control or regulation by the Public Utilities Commission or by any political subdivision of the State of California other than by the authority as provided in such contract.

(c) Within 90 days of the effective date of this act, there shall be created a Transit Advisory Council of 21 members to meet at least monthly, to be fully informed by the Transit Authority of all progress and policies of the authority and to advise the authority with respect to all matters of public interest in the development of public transit. All members shall be appointed for two year terms. Four members of the council shall be appointed by the board of supervisors of Los Angeles County, one member each by the boards of supervisors of Riverside, Orange, and San Bernardino Counties. Seven members shall be appointed by the Council of Mayors of the metropolitan area. Seven members shall be appointed by the Transit Authority. All members shall be citizens of high standing who shall serve without pay.

SEC. 10. Section 3.7 of said act is amended to read:

The bond shall be payable to the authority in whatever penal sum may be directed by the authority conditioned upon the faithful performance of the duties of the office and the payment of all money received by him according to law and the orders of the authority. The authority may, at any time, require a new bond from the treasurer in such penal sum as may then be determined by the authority. The obligation of the sureties shall not extend to any loss sustained by the insolvency, failure or closing of any national or state bank wherein the treasurer has deposited funds if the bank has been approved by the authority as a depositary for such funds. All funds deposited by the treasurer in any bank shall be placed in the name of the authority, *shall be secured as provided in Section 4.17 of this act*, and shall be withdrawn or paid out only by check or draft upon the bank, signed by [the treasurer and countersigned by the chairman or general manager of the authority] *such officer or officers, or employee or employees, as may be designated by the authority; provided, however, that revenue bonds of the authority may be paid in the manner provided in the bond indenture. The authority may establish separate funds, trust funds, sinking funds, reserve funds and any other fund or funds deemed necessary or convenient and may provide for the uses thereof and the methods of making payments therefrom, and may make covenants in any revenue bond indenture relating to any such fund or funds.* [The authority may designate any of its members or any officer or employee of the authority to affix the signature of the chairman and another to affix the signature of the treasurer to any check or draft for payment of salaries or wages and for the payment of any other obligation of not more than two thousand five hundred dollars ($2,500).] In case any officer *or employee* whose signature appears upon any check ceases to hold his office *after so signing, but* before the delivery thereof to the payee *or presentation thereof for payment*, his signature nevertheless shall be valid and sufficient for all purposes with the same effect as if he had remained in office *or employment* until delivery thereof.

SEC. 11. Section 3.9 of said act is amended to read:

Sec. 3.9. A majority of the members of the authority constitute a quorum for the transaction of business and, *subject to the next sentence*, may act for the authority. *All action of the authority shall be by a majority vote of its members, except as otherwise provided in this act, and except that any indenture under which revenue bonds of the authority are issued and outstanding may provide that certain acts of the authority shall require a vote of two thirds of the full number of the members thereof and in such cases such two-thirds vote shall be required.*

SEC. 12. Section 4.3 of said act is amended to read:

Sec. 4.3. The authority may acquire by grant, purchase, gift, devise or lease, and may hold, use, sell, lease or dispose of, [any] real and personal property *of every kind and nature whatsoever*, licenses, [franchises,] patents, rights and interests necessary for the full exercise, or convenient or useful for the carrying on of, any of its powers pursuant to the provisions of this act. [Wherever under then existing statute, ordinance or law a franchise, permit, license or authorization is required for a public utility, then this authority shall acquire a similar franchise, permit, license or authorization in the same manner and pursuant to the same procedure, terms and conditions as are required of a public utility.]

SEC. 13. Section 4.4 of said act is amended to read:

Sec. 4.4. The authority shall have power to acquire, construct, complete, develop, own, operate and maintain the system in the [county] *metropolitan area;* including power to acquire by purchase, lease, gift or otherwise all or any part of any patents, licenses, rights, interests, engineering studies, data or reports owned or held by any person and determined by the authority to be necessary, convenient or useful to the authority in connection with the acquisition, construction, completion, development, ownership, operation or maintenance of the system.

No publicly owned property shall be taken, or condemnation proceedings instituted therefor, without the consent of the public agency or public corporation owning or controlling such publicly owned property, nor shall any privately owned public utility be taken or condemned without consent of such utility. *Sections 1401 to 1421, inclusive, of the Public Utilities Code shall not apply to any such condemnation of property of a privately owned public utility with the consent of such public utility at a price agreed to between the authority and such public utility, and the Public Utilities Commission of the State of California shall have no jurisdiction with respect thereto.*

SEC. 16. Section 4.8 of said act is amended to read:

Sec. 4.8. *Whenever the authority acquires any existing system or portion thereof (whether motor busses, trolley coaches, streetcars or other types of mass transit) it may continue to maintain and operate such system or portion thereof in, upon and across any and all streets, highways, freeways and other public places upon which such system or portion, as the case may be, was operated at the time the same was acquired by the authority. The authority shall not construct (excluding, however, any repair or reconstruction of the structure of any existing system acquired by the authority) any subways, elevated railways, monorail, or any other structures constituting a method of mass rapid transit in, upon, over, under or across public streets, highways, freeways and other public places without the consent of the city, county or state having jurisdiction over such street, highway, freeway, or other public place. The authority may operate motor bus lines and motor busses upon any public streets, highways, ways or freeways, and, subject to the requirements of the last preceding sentence with respect to new structures, may operate any other method of mass rapid transit in, upon, over, under or across public streets, highways, freeways and other public places.* [The authority shall have power to construct, operate and maintain the system in, under, upon, over, across or along any public street, highway, or waterway under agreement with or franchises from the United States of America or the State of California, the county, district, or the governing body of the municipal corporation which has jurisdiction over such street, highway or waterway, and in, under, upon, over or across any vacant public lands which are or may become the property of the United States of America, the State of California, the county or any public corporation in the county by agreement with the United States of

America, the State, the county or such public corporation. In the event the use by the authority of any existing public street or highway or crossings thereof or removal of public utilities necessitates changes therein or expenditures, the cost thereof shall be borne by the authority.]

SEC. 17. Section 4.9 of said act is amended to read:

Sec. 4.9. [Subject to the jurisdiction of the Public Utilities Commission, the] *The* authority may fix rates, fares, tolls, charges, rents or other charges for the use of the system acquired, constructed, operated or maintained by the authority and may alter, change or modify the same, *all subject to the covenants in any revenue bond indenture pursuant to which revenue bonds have been issued and are outstanding which contains covenants* [in accordance with any contractual obligation which may be] entered into by the authority with respect to the fixing of such rates, fares, tolls, charges and rents.

SEC. 18. Section 4.10 of said act is amended to read:

Sec. 4.10. [Subject to the jurisdiction of the Public Utilities Commission, the] *The* authority may enter into covenants to *fix and to* maintain [minimum rates, fares or charges, or] rates, fares or charges sufficient *at least* to *pay expenses of maintenance, operation and administration and to* service the outstanding *bonds and other* obligations of the authority, if any, *including but not limited to any amounts required for reserve, sinking or other special funds provided in the indenture*; and it may also enter into covenants to increase rates, fares or charges from time to time as may be necessary pursuant to any such contract or agreement with the holders of any *bonds or other* obligations of the authority.

SEC. 19. Section 4.12 of said act is amended to read:

Sec. 4.12. Contracts may be let by an officer or employee of the authority or by the superintending corporation in such manner as may be authorized from time to time by the authority. Any revenue bond indenture may provide limitations upon the exercise of the powers stated in this section and such limitations shall apply so long as any of the revenue bonds issued pursuant to such indenture are outstanding and unpaid.*

SEC. 20. Section 4.13 of said act is amended to read:

Sec. 4.13. [Subject to the provisions of the Public Utilities Act and authorization pursuant thereto from the Public Utilities Commission, the] *The* authority may sell, lease, convey or otherwise dispose of any of its rights, interests or properties after the purposes for which they are acquired have been fully satisfied *or outlived*. It may sell, lease or otherwise dispose of, at any time, any surplus materials or other property not needed for its requirements or for the purpose of carrying out this act. *Any revenue bond indenture may provide limitations upon the exercise of the powers stated in this section, and such limitations shall apply so long as any of the revenue bonds issued pursuant to such indenture are outstanding and unpaid.*

SEC. 21. Section 4.15 of said act is amended to read:

Sec. 4.15. The authority shall by resolution make all rules and regulations governing the use, operation and maintenance of the system and shall determine all routings and change the same whenever it is deemed advisable by the authority[, subject to the provisions of all ordinances granting franchises to the authority]; *provided, however, that any revenue bond indenture may place limitations and conditions upon the exercise of such powers or any thereof.*

SEC. 22. Section 4.16 of said code is amended to read:

Sec. 4.16. [Subject to the provisions of the Public Utilities Act and authorization pursuant thereto from the Public Utilities Commission, the] *The* authority shall have power to lease the system or any part thereof to, or contract for the use of the system or any part thereof by, any operator; *provided, however, that any revenue bond indenture may prohibit, limit or restrict the exercise of such power.*

SEC. 23. Section 4.20 of said act is amended to read:

Sec. 4.20. One of the purposes of this act is to coordinate any operations of the authority with the operations of any *then* existing [transit facilities] *system, and no other section of this act shall relieve the authority from the limitations, obligations and requirements of this Section 4.20. If the authority proposes, and shall then be ready, able and willing, to establish, construct, complete, acquire, operate, extend or reroute (all of the foregoing being hereinafter referred to by the word "establish" in all forms thereof), directly or indirectly, either itself or by lease or contract with any other person or persons or otherwise, any mass rapid transit service or system in such manner or form as will or may, either then or at any time in the future, divert, lessen or compete for the patronage or revenues of the existing system of a privately owned public utility (excluding any subsequent*

extension or rerouting of the latter) situated entirely within the metropolitan area, then the authority shall give to each such public utility prior written notice of the proposed establishment of such service or system in sufficient detail to fully apprise such public utility of the form, nature and extent thereof and (subject to the restrictions of this Section 4.20) of the time within which the authority intends to establish such service.

Until 120 days after receipt of such notice by each such public utility, the authority shall not establish any such proposed service or system. At any time after receipt of such notice, or if the authority without giving such notice establishes any such proposed service or system in violation of this Section 4.20 then at any time after establishment of such service or system, and in either event until the expiration of 120 days after the receipt of such a notice, each such public utility shall have the option, in its sole discretion to be exercised by written notice to the authority, (i) to require the authority to purchase that portion of the existing system of such public utility (as designated in such written notice) the patronage or revenue from which will or may be diverted, lessened, or competed for by the establishment of the proposed service or system by the authority or (ii) to require the authority to purchase all of the existing system of such public utility.

If such public utility elects the relief described under clause (i) or (ii) above, then unless within ninety (90) days after receiving written notice of such election the authority gives such public utility notice in writing that it has abandoned any intention to establish the proposed service or system of which it gave notice and has abandoned any such service or system which it established without giving such notice in violation of this Section 4.20, the authority shall be obligated to such public utility for the relief so elected and the authority shall not establish the proposed service or system until it has completed the purchase of all or part of the existing system of such public utility in accordance with such election. The purchase price to be paid for such existing system (extending thereby only a portion of the existing system when the election has been to sell only such portion) shall be the reproduction cost new (including going concern value) of such existing system at the date of the giving of the notice of election, less depreciation (including wear and tear and obsolescence, if any) to date of transfer or to the 180th day after the giving of the notice of election whichever date occurs earlier; but in no event less than the average annual gross revenue for the preceding three calendar years of such existing system. In the event that such public utility has elected relief under clause (i) above, it shall be entitled as a part of such price to severance damages for the loss of value of the unsold portion of the existing system of such public utility; and in the event such public utility has elected relief under clause (ii) above, the authority shall assume all payments becoming due after the date of purchase on all contracts and obligations of such public utility which payments if made by such a public utility would be includible as expenses of operation subsequent to the date of transfer to the authority under the system of accounting prescribed by the Public Utilities Commission or which payments are pursuant to contracts for delivery of assets by third persons or for the making or completion of additions or improvements subsequent to said date of transfer. In the event that the authority purchases such existing system from such public utility pursuant to an election by the latter under either clause (i) or (ii) above, the authority shall indemnify and save and hold such public utility harmless from all payments included in the preceding sentence and from any franchise or contract liabilities to any public corporation which mature or accrue after such purchase and which were incurred in connection with such existing system so purchased and the portions of the mass rapid transit service formerly served with such existing system. The authority may at any time enter into an agreement with each such public utility as to the amount of such price.

Unless the authority and such public utility have agreed upon the amount of the price required to be paid hereunder, or unless they have agreed that the amount of such price shall be established by arbitration and upon the method of naming arbitrators and the method of conducting such arbitration, the amount of such price may be fixed and judgment entered thereon in a suit brought either by the public utility or by the authority in the superior court of the State of California in and for the county in which is located that portion of the existing system to be acquired by the authority from such public utility which is largest in value.

Any public utility whose patronage or revenues are diverted, lessened or competed for by any act of the authority which is in violation of this Section 4.20 shall be entitled to injunctive relief against the authority to stop such violation.

The maintenance and operation, but not the extension or rerouting, of any existing system acquired by the authority from a privately owned public utility shall not be deemed to be the establishment of a mass rapid transit service or system within the meaning of this section.

Section 851 of the Public Utilities Code shall not apply to any contract for sale or sale of an existing system or portion thereof or other action taken pursuant to this Section 4.20, and the Public Utilities Commission of the State of California shall have no jurisdiction with respect thereto.

SEC. 24. Section 4.21 of said act is amended to read:

Sec. 4.21. [The authority shall pay to each public corporation in which property of the authority is situated an amount equal to the amount which would be paid in taxes and assessments on such property if it were privately owned. The amount of such payments shall be computed in the same manner as taxes or assessments on such property would be computed if it were privately owned, except that for this purpose the property of the authority shall be valued at appropriate times by the State Board of Equalization, and its determination thereof shall be final. This section shall not be applicable to bonds issued by the authority.]

Whenever the authority acquires an existing privately owned system or portion thereof, the authority may pay to each public corporation to which property taxes or franchise payments have been paid by the public utility, the property of which is acquired, a payment in lieu of taxes or franchise payments in an amount not to exceed that theretofore paid by the public utility with respect to the property which has been acquired. The amount or amounts of such payments or method of computing such amount or amounts, the time or times of payment, and the source or sources thereof may be fixed by agreement between the authority and any public corporation, but no such agreement shall be for a term of more than twenty-five (25) years.

SEC. 25. Section 4.22 is added to said act, to read:

Sec. 4.22. Whenever it is claimed that a person has been injured or any property damaged as a result of the negligence or carelessness of the authority or of any of its officers or employees or agents occurring during the course of their service or agency, a verified written claim by the claimant himself or by his agent or by his attorney for damages shall be filed with the secretary of the authority within six (6) months after the accident occurred. The claim shall specify the name and address of the claimant, the date and place of the accident and the extent of the injuries or damages received. No civil action shall be commenced against the authority or any officer or any employee or agent thereof, upon any claim for which a verified claim is required to be filed by this section, unless such verified claim has been filed in the manner and within the time provided in this section.

OPINION OF ATTORNEY GENERAL

STATE OF CALIFORNIA, DEPARTMENT OF JUSTICE
OFFICE OF THE ATTORNEY GENERAL
SAN FRANCISCO, May 6, 1955

Hon. Arthur H. Breed, Jr.
State Senator, Alameda County
State Capitol
Sacramento, California

DEAR SENATOR BREED:

Re: Senate Bill 277

Under date of April 26, 1955, you wrote this office asking us whether in light of our opinion in 22 Ops. Cal. Atty. Gen. 168 the amendatory language contained in Senate Bill No. 277 is unnecessary legislation. That opinion dealt only with nonchartered counties. You ask if the conclusions of that opinion are not also applicable to chartered cities, nonchartered cities, and chartered counties.

The amendatory language contained in Senate Bill No. 277 is as follows:

> "Nothing in this chapter or any other law authorizes a governing body to require a subdivider to dedicate any property, or to make any payment in lieu of the dedication of property, for sites for public schools, public buildings, or public parks or for any other purpose other than for improvements as defined in Section 11511."

It is clear that the Subdivision Map Act (Business and Profession Code Secs. 11500-11628) by its terms applies to all cities, counties, cities and counties, whether chartered or unchartered. (Bus. and Prof. Code §§ 17, 18 and 11525.)

The question then resolves itself into whether the conclusions of our opinion are equally applicable to nonchartered cities, chartered cities, and chartered counties.

It would appear that the conclusions of our opinion are also applicable to nonchartered cities and to chartered counties. However, in the limited time available to prepare this letter we are unable in this complex and confused field of powers of municipal corporations to state with any certainty whether the conclusions of our opinion are applicable to chartered cities. We will outline below our analysis of the issues involved and therein state the conclusions we have reached.

Where "municipal affairs" (matters of strictly local concern) are involved chartered cities have exclusive power limited only by the provisions of their charters or the provisions of the California and United States Constitutions. (Calif. Const. Art. XI, §§ 6 and 8; *City of Pasadena* v. *Charleville*, 215 Cal. 384, 388-389.) As to matters determined to be "municipal affairs" (matters of strictly local concern), local ordinances of chartered cities are superior to conflicting state statutes. (Calif. Const. Art. XI, §§ 6 and 8; *Simpson* v. *City of Los Angeles*, 40 Cal. 2d 271, 277.) Chartered cities do not need express authorization in their charters to exercise power over "municipal affairs" (matters of strictly local concern) (Art. XI, §§ 6 and 8; *City of Pasadena* v. *Charleville*, 215 Cal. 384, 388-389.)

Thus in matters which are not strictly "municipal affairs," state statutes control even over charter provisions if a conflict exists with local ordinances. While chartered cities are supreme in strictly "municipal affairs" (*City of Pasadena* v. *Charleville*, 215 Cal. 384, 388-389), that supreme power over strictly "municipal affairs" is not given to nonchartered cities, nonchartered counties, or chartered counties. (See Calif. Const. Art. XI, §§ 6 and 8.)

California Constitution, Art. XI, Sec. 11 confers broad police power upon all cities and counties whether chartered or unchartered to enact ordinances which are not in conflict with the general laws. (*Simpson* v. *City of Los Angeles*, 40 Cal. 2d 271, 277-278; *de Aryan* v. *Butler*, 119 Cal. App. 2d 674, 681-682; *Ponti* v. *Burastero*, 112 Cal. App. 2d 846, 851-852.)

Thus, to summarize, all cities and counties may enact ordinances concerning both strictly "municipal affairs" and not strictly "municipal affairs." However, chartered cities are supreme as to "municipal affairs," while on the other hand the State Legislature when it speaks is supreme as to all cities and counties on matters which are not strictly "municipal affairs" and as to nonchartered cities, nonchartered counties, and chartered counties on matters which are strictly "municipal affairs."

In light of the above analysis do the cities and counties have the power, to require, as a condition for the approval of a subdivision, that a subdivider dedicate property or make payment in lieu of the dedication of property for sites for public schools, public buildings or public parks?

Our opinion (22 Ops. Cal. Atty. Gen. 168) in effect concludes that a nonchartered county may not require a subdivider to dedicate property or to make payment in lieu of such a dedication of property as a condition for the approval of a subdivision on the basis that such local action is in conflict with a general law, the Subdivision Map Act. In that opinion we concluded that the Subdivision Map Act only permits unchartered counties operating thereunder to impose conditions concerning design and improvements as defined in Bus. and Prof. Code Secs. 11510 and 11511 and that conditions concerning the dedication of school sites was not a condition concerning such design and improvements as therein defined. It should be noted that a recent case of the California Supreme Court, (*City and County of San Francisco* v. *Ross* (1955) 44 A.C. 51), while disapproving the action of the city on another basis, apparently approved action by a chartered city and county to provide parking facilities by means of a local ordinance without requiring the city and county to proceed by means of any of the state statutes which provide procedures for developing parking facilities.

Under our opinion a nonchartered city operating under the State Subdivision Map Act would be precluded from requiring dedication of public sites on the same basis that nonchartered counties are precluded. (22 Ops. Cal. Atty. Gen. 168).

Since the types of provisions which may be put in the charter of a county are very limited and since chartered counties do not have supreme power over strictly "municipal affairs," it appears that the conclusion of our opinion would be appreciable to chartered counties also.

As to chartered cities, however, it is necessary to determine whether requiring such dedication is a strictly "municipal affair." If it is a strictly "municipal affair" then our opinion is not applicable to chartered cities and moreover, the limitation in Senate Bill No. 277 would be ineffectual and an ordinance requiring dedication would be valid and superior to the state statute.

The significant cases on the Subdivision Map Act are *Ayres* v. *City Council of Los Angeles*, 34 Cal. 2d 31 and *Mefford* v. *City of Tulare*, 102 Cal. App. 2d 919. These cases hold that requiring dedication for sewers, water lines, street widening, and street planting strips are valid. Both cases involve chartered cities. However, in both these cases the courts found that the requirements for dedication were within the limitations permitted under the Subdivision Map Act. Both cases also contained dicta implying that the requirement for dedication were matters of "local concern." No court has, in fact, determined whether subdividing itself is a matter of "state-wide" or "local" concern.

We must also consider the possibility that the provisions of a given city charter may expressly confer power to require subdividers to dedicate property for public purposes. If such power were expressly conferred, or if such power could be implied from specific charter provisions, then it could be held that a local ordinance thereunder was not in conflict with the State Subdivision Map Act even though such action by nonchartered cities, nonchartered counties, and chartered counties not based on an express charter provision has by our opinion been determined to be in conflict with that act. The vast number of charters which exist make it impossible, for the purposes of this letter, to come to any general conclusion on this issue concerning chartered cities.

It appears that if Senate Bill No. 277 becomes law, cities and counties, whether chartered or unchartered, could not require dedication of property for public purposes as a condition for approval of a subdivision when those cities operate under the State Subdivision Map Act if such dedication is held by the courts to be not strictly a municipal affair. It also appears that such required dedication by cities and counties, whether chartered or unchartered, would be precluded even if a city or county sought to control subdivisions by means of local subdivision ordinances if such dedication were held to be not strictly a "municipal affair." It is certain, however, that if the courts hold that such required dedication is strictly a "municipal affair" then the limitation in Senate Bill No. 277 would not be effective as to chartered cities.

In summary we reply to your question as follows:

1. The conclusions in our opinion apply to nonchartered cities.

2. We believe the conclusions in our opinion apply to chartered counties.

3. The conclusions in our opinion probably would not apply to chartered cities.

Yours very truly,

EDMUND G. BROWN, Attorney General
By MIRIAM E. WOLFF, Deputy Attorney General

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 735:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 11, 1955

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Assembly Bill No. 735, "An act to add Chapter 18.5 to Division 3 of the Education Code, relating to advance apportionments to junior college districts formed to include high school districts maintaining junior colleges, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

It will be necessary to pass this bill to make money available for advance to newly formed junior college districts. There are in the State such districts seriously in need of receiving such funds at once.

I therefore recommend consideration of Assembly Bill No. 735 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

PART 14. ALCOHOLIC BEVERAGE TAX

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

32001. This part is known and may be cited as the "Alcoholic Beverage Tax Law."

32002. Unless the context otherwise requires, the definitions set forth in this chapter and those in Chapter 1 of Division 9 of the Business and Professions Code govern the construction of this part.

32003. "Sale," as used in Sections 32151 and 32201 of this code, includes, in addition to the definition in Section 23025 of the Business and Professions Code, the transaction whereby alcoholic beverages are transferred, with or without consideration, by a licensee holding one type of license to himself for purposes of sale under a retailer's license held by him or to any person for any purpose; and the transaction whereby alcoholic beverages are transferred, with or without consideration, by a customs broker to any person within this State except a licensed importer.

32004. "Tax," as used in this part, except in Chapters 4 and 5, means the excise tax imposed by this part on beer or wine or on distilled spirits.

32005. "Taxpayer," means a person liable for the payment of a tax pursuant to this part.

32006. The provisions of this part insofar as they are substantially the same as existing provisions of law relating to the same subject matter shall be construed as restatements and continuations and not as new enactments.

32007. Any action or proceeding commenced before this part takes effect, or any right accrued, is not affected by this part, but all procedure taken shall conform to the provisions of this part as far as possible.

CHAPTER 2. GENERAL EXEMPTIONS

32051. Alcoholic beverages in continuous transit through this State are exempt from the provisions of this part only while in continuous transit through this State in the possession or custody of common carriers. The board may require affidavits of any person on forms prescribed by the board and may require any such shipments to be checked in and checked out at the boundaries of the State. Any person refusing to make the affidavits required or refusing to check in or check out the alcoholic beverages is guilty of a misdemeanor.

32052. No tax shall be imposed upon the sale of alcohol, distilled spirits, or wine by distilled spirits manufacturers, brandy manufacturers, rectifiers, industrial alcohol dealers, or wine growers for use in the trades, professions, or industries, but not for beverage use. 32053. Except as provided in Section 23113 of the Business and Professions Code, alcohol or other distilled spirits sold for the uses mentioned in Sections 23111

and 23112 of that code may be sold free of the tax imposed by this part only when sold in packages of a capacity of larger than one gallon.

32054. No tax shall be imposed upon the sale of alcoholic beverages by a licensee in this State to a common carrier or to a person licensed to sell alcoholic beverages on boats or trains operated by a common carrier when the alcoholic beverages are to be used without this State; nor in such case need the common carrier procure a license for purposes of purchasing alcoholic beverages from a licensed manufacturer, wine grower, rectifier, importer, or wholesaler.

CHAPTER 3. REGISTRATION AND BONDS

32101. The issuance of any manufacturer's, wine grower's, distilled spirits manufacturer's agent's, rectifier's, wine rectifier's, wholesaler's, importer's, or customs broker's license under Division 9 of the Business and Professions Code shall constitute the registration of the person to whom the license is issued as a taxpayer under this part. Upon the issuance of any such license the Department of Alcoholic Beverage Control shall furnish a copy thereof to the board.

32102. Every taxpayer shall file with the board, in such form as the board prescribes, a bond or bonds executed by him as principal and a corporation such as is mentioned in Section 1056 of the Code of Civil Procedure in this State as surety, payable to the people of the State of California, conditioned upon the payment of all taxes, penalties, and other obligations of the taxpayer arising under this part.

32103. Subject to the limitations provided in this article, the board shall fix the total amount of the bond or bonds required of any taxpayer and may increase or reduce the amount at any time. In fixing the total amount, the board shall require a bond or bonds equivalent in total amount to twice the taxpayer's estimated monthly tax ascertained in such manner as the board may deem proper, the total amount of the bond or bonds required of any taxpayer shall never be less than five hundred dollars ($500).

32104. Every bond shall contain a provision substantially that when the surety exercises his right to withdraw as surety the withdrawal shall be effective on the first day of the calendar month after receipt of the notice by the board if the notice is received on or before the fifteenth day of the month, otherwise the withdrawal shall be effective on the first day of the second calendar month after receipt of the notice by the board.

32105. In lieu of a bond or bonds a taxpayer, under such conditions as the board may prescribe, may deposit with the State Treasurer an amount of lawful money equivalent to the amount of the bond or bonds or he may deposit bonds or other obligations of the United States, the State of California, or any county or city and county of this State of an actual market value not less than the amount of the bond or bonds fixed by the board.

32106. Upon receipt of a certificate of the board setting forth the amount of a taxpayer's delinquencies, the State Treasurer shall pay to the board the amount so certified from the money deposited with him by the taxpayer or from the amounts received from the sale of bonds or other obligations deposited with the Treasurer by the taxpayer. Securities deposited with the State Treasurer which has a prevailing market price may be sold by him for the purposes of this section at private sale at a price not lower than the prevailing market price thereof.

32107. Whenever a taxpayer's bond is cancelled, or becomes void or unenforceable for any reason, or whenever a taxpayer fails to pay any taxes or penalties due under this part, the board shall give written notice thereof to the Department of Alcoholic Beverage Control.

32109. Any common carrier, except railroad and steamship companies, before engaging in the business of transporting shipments of alcoholic beverages into this State, shall register with the board and make application to the board for an interstate alcoholic beverage transporter's permit, which, upon issuance, shall be valid until revoked by the board.

Article 2. Presumptions and Exemptions

32171. It shall be presumed, for the purposes of this part, that all beer removed from the internal revenue bonded premises of a beer manufacturer has been sold in this State by the manufacturer, unless one of the following is proved to the satisfaction of the board, in reports on forms prescribed by the board:

(a) That the beer has been sold and delivered in internal revenue bond to another beer manufacturer in this State.

32176. If taxes have been paid on beer or wine subsequently exported from the State or sold for export and actually thereafter exported from this State, or on beer or wine subsequently destroyed under the supervision of a board representative, a taxpayer may claim and shall be allowed credit with respect to the taxes in any report filed or assessment made under this part.

32177. Any wine grower may claim and shall be allowed credit in any tax report filed or assessment made under this part with respect to the tax paid by him on wine sold to a wine rectifier and which has been exported from this State by the wine rectifier or sold for export by the wine rectifier and thereafter actually exported from this State. The board shall make rules prescribing the procedure for claiming and allowance of the credit.

CHAPTER 5. TAX ON DISTILLED SPIRITS

Article 1. Imposition of Tax

32201. An excise tax is imposed upon all distilled spirits sold in this State or pursuant to Section 23384 of the Business and Professions Code by manufacturers, distilled spirits manufacturer's agents, brandy manufacturers, rectifiers, or wholesalers, or sellers of distilled spirits selling distilled spirits with respect to which no tax has been paid within areas over which the Federal Government exercises jurisdiction, at the following rates:

On all distilled spirits of proof strength or less, eighty cents ($0.80) per wine gallon, and at a proportionate rate for any quantity.

All distilled spirits in excess of proof strength shall be taxed at double the above rate.

32202. An excise tax is levied on sales made in this State of distilled spirits by common carriers on board boats and trains, or by persons licensed to sell distilled spirits on board such boats and trains, at the same rates as set forth in Section 32201. On or before the first day of each month such common carriers and such other licensed persons shall forward to the board a verified report of the sales of distilled spirits so made in the calendar month preceding the previous calendar month, in such detail and form as the board may prescribe, together with a payment sufficient to pay the tax on the sales.

32203. The board shall from time to time make examinations to determine the accuracy of the reports of sales submitted by common carriers and by persons licensed to sell distilled spirits on board boats and trains operated by common carriers. The board may make such rules for the enforcement of the provisions of Section 32202 as it deems necessary to adequately insure the collection of the tax.

Article 2. Presumptions and Exemptions

32211. It shall be presumed that all distilled spirits acquired by any taxpayer have been sold in this State by him unless one of the following is proved to the satisfaction of the board, in reports on forms prescribed by the board:

(a) That the distilled spirits are still in the possession of the licensee.

(b) That the distilled spirits have been sold or delivered to another licensed distilled spirits manufacturer, rectifier, importer, or wholesaler.

(e) That prior to the termination of possession there has been an unaccounted for loss, but the unaccounted for loss shall not exceed a tolerance to be fixed by the board.

(f) That the distilled spirits are otherwise exempt from taxation under this part.

32212. The tax is not imposed upon any distilled spirits specifically mentioned in subdivisions (a) to (f), inclusive, of Section 32211.

Any claim for exemption from taxes under Section 32211 shall be made to the board in such manner as the board shall prescribe.

32213. Whenever distilled spirits are sold by manufacturers, rectifiers, importers, or wholesalers to common carriers engaged in interstate or foreign passenger service for use or sale by the carriers partly within the State and partly without the State on board boats or trains, or to persons licensed to sell distilled spirits on board such boats or trains, the tax shall not be levied on the sales made by manufacturers, rectifiers, importers, or wholesalers.

CHAPTER 6. DETERMINATIONS

Article 1. Returns and Payments

32251. The tax is a direct obligation of the taxpayer and is due and payable monthly on or before the fifteenth day of each calendar month. Each taxpayer, on or before the fifteenth day of each month, shall make out a tax return for the preceding calendar month, in such form as is prescribed by the board, showing the amount of beer or wine or distilled spirits sold in this State, the amount of tax for the period covered by the return, and such other information as the board deems necessary. The taxpayer shall deliver the return, together with a remittance of the amount of tax due, to the office of the board on or before the fifteenth day of the month.

32252. If the tax is not paid to the board within the time prescribed for the payment of the tax, a penalty of 5 percent of the amount of the tax shall be added thereto on account of the delinquency.

32253. The board for good cause may extend for not to exceed 30 days the time for making any report or paying any tax. Any person to whom an extension is granted and who pays the tax within the period for which the extension is granted shall pay, in addition to the tax, interest at the rate of 6 percent per annum from the date the tax would have been due without the extension to the date of payment.

32254. All taxes not paid on the date when due and payable shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from and after that date until paid.

Article 2. Deficiency Determinations

32271. If the board is dissatisfied with the return or returns filed or amount of tax paid to the State by any taxpayer, it may compute and determine the amount to be paid based upon any information available to it. One or more additional determinations may be made of the amount of tax due for one or for more than one month. The amount of tax so determined shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close

of the month for which the amount of the tax, or any portion thereof, should have been reported until the date of payment. In making a determination, the board may offset overpayment for a month or months against underpayments for another month or months and against the interest and penalties on the underpayments. If any part of the deficiency for which a determination of an additional amount due is made is found to have been occasioned by negligence or intentional disregard of this part or authorized rules, a penalty of 10 percent of the amount of the determination shall be added, plus interest as above provided. If any part of the deficiency for which a determination of an additional amount due is made is found to be occasioned by fraud or an intent to evade this part or authorized rules, a penalty of 25 percent of the amount of the determination shall be added, plus interest as above provided. The board shall give to the taxpayer written notice of its determination. The notice may be served personally or by mail; if by mail, service shall be made pursuant to Section 1013 of the Code of Civil Procedure and shall be addressed to the taxpayer at his address as it appears in the records of the board, but the service shall be deemed completed at the time of the deposit of the notice in the mail without extension of time on account of the distance between the place of deposit and the place of address.

32272. Except in the case of a fraudulent return or neglect or refusal to make a return, every notice of a determination of an additional amount due shall be given within three years after the date when the amount should have been returned.

Article 3. Determination If No Return Made

32291. If any taxpayer fails to make a return required by this part, the board shall make an estimate, based upon any information available to it, for the month or months with respect to which the taxpayer failed to make a return of all alcoholic beverages sold in this State by him. Upon the basis of this estimate the board shall compute and determine the amount required to be paid to the State, adding to the sum thus fixed a penalty equal to 5 percent thereof. One or more determinations may be made of the amount of tax due for one or for more than one month. The amount of tax so determined shall bear interest at the rate of one half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount of the tax, or any portion thereof, should have been returned until the date of payment. In making a determination the board may offset overpayments for a month or months against underpayments for another month or months and against interest and penalties on the underpayments. If any part of the deficiency for which a determination is made is due to negligence or intentional disregard of this part or authorized rules, an additional penalty of 10 percent of the amount of the determination shall be added. If the neglect or refusal of a taxpayer to file a return as required by this part was due to fraud or an intent to evade the tax, there shall be added to the tax a penalty equal to 25 percent thereof in addition to the 5 percent penalty. The board shall give to the taxpayer written notice of the estimate and determination, the notice to be served personally or by mail in the same manner as prescribed for service of notice by Section 32271.

32292. Except as provided in Section 32253, a penalty of five dollars ($5) shall be imposed on any taxpayer who fails to file a tax return within the time prescribed for the filing of the return, but this penalty shall not be in addition to the 5 percent penalty provided under Section 32252 for the late payment of tax if the 5 percent penalty exceeds five dollars ($5).

Article 4. Redeterminations

32301. Any person from whom an amount is determined to be due under Articles 2 or 3 of this chapter or any person directly interested may petition for a redetermination thereof within 15 days after service upon him of notice of the determination. If a petition for redetermination is not filed within the 15 day period, the amount determined to be due becomes final at the expiration thereof. If a petition for redetermination is filed within the 15-day period, the board shall reconsider the amount determined to be due, and if the person has so requested in his petition, shall grant him an oral hearing and shall give him 10 days' notice of the time and place of the hearing. The board may continue the hearing from time to time as may be necessary.

The board may decrease or increase the amount of the determination. The amount of the determination may be increased, however, only if claim for the increase is asserted by the board at or before the hearing.

The order or decision of the board upon a petition for redetermination shall become final 15 days after service upon the petitioner of notice thereof.

All amounts determined to be due by the board under Articles 2 or 3 of this chapter are due and payable at the time they became final, and if not paid when due and payable, there shall be added thereto a penalty of 10 percent of the amount determined to be due.

Any notice required by this section shall be served personally or by mail in the same manner as prescribed for service of notice by Section 32271.

Article 5. Jeopardy Determinations

32311. If the board believes that the collection of any amount of tax will be jeopardized by delay, it shall thereupon make a determination of the amount of tax due, noting that fact upon the determination, and the amount of tax shall be immediately due and payable. If the amount of the tax, interest, and penalty specified in the jeopardy determination is not paid, or a petition for redetermination is not filed, within 10 days after the service upon the taxpayer of notice of the determination, the determination becomes final, and the delinquency penalty and interest provided in Sections 32252 and 32254 shall attach to the amount of tax specified therein.

32312. The taxpayer against whom a jeopardy determination is made may file a petition for the redetermination thereof with the board within 10 days after the service upon him of notice of the determination, but he shall within the 10-day period deposit with the board such security as it deems necessary to insure compliance with the provisions of this part. The security may be sold by the board at public sale if it becomes necessary in order to recover any amount due under this part. Notice of the sale may be served upon the person who deposited the security personally or by mail in the same manner as prescribed for service of notice by Section 32271. Upon any such sale, the surplus, if any, above the amount due under this division shall be returned to the person who deposited the security.

CHAPTER 7. COLLECTION OF TAX

Article 1. Suit for Tax

32351. The board may bring such legal actions as are necessary to collect any deficiency in the tax required to be paid, and, upon the board's request, the Attorney General shall bring the actions.

32352. In any suit brought to enforce the rights of the State with respect to taxes, a certificate by the board showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency of the amount of tax, interest, and penalty set forth therein, and of compliance by the board with all provisions of this part in relation to the computation and levy of the tax. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment shall be required.

Article 2. Judgment for Tax

32361. Whenever any tax, interest, or penalty is not paid when due, the board may file in the office of the County Clerk of Sacramento County or any other county a certificate specifying the amount of the tax, interest, and penalty due, the name and last known address of the taxpayer liable for it, that the board has complied with all the provisions of this part in relation to the computation and levy of the tax, and requesting that judgment be entered against the taxpayer in the amount of the tax, interest, and penalty set forth in the certificate. The county clerk immediately upon the filing of the certificate shall enter a judgment for the people of the State of California against the taxpayer in the amount of the tax, interest, and penalty set forth in the certificate. The judgment may be filed by the county clerk in a loose-leaf book entitled "Special Judgments for State Excise Tax."

32362. An abstract or copy of the judgment entered under Section 32361 may be recorded with the county recorder of any county, and from the time of such recording, the amount of the taxes, interest, and penalty set forth in the judgment shall constitute a lien upon all the real property owned by the taxpayer in the county or which he may acquire afterwards and before the lien expires, which lien shall have the force, effect, and priority of a judgment lien. Execution shall issue upon such a judgment upon the request of the board in the same manner as execution may issue upon other judgments, and sales shall be held under the execution as prescribed in the Code of Civil Procedure. In all proceedings under this section the board shall act on behalf of the people of the State of California.

Article 3. Seizure and Sale

32371. Whenever any taxpayer is delinquent in the payment of the tax, the board or its authorized representative may seize any property, real or personal, of the taxpayer, and sell at public auction the property seized, or a sufficient portion thereof, to pay the tax due, together with any penalties imposed for the delinquency and all costs that have been incurred on account of the seizure and sale.

32372. Written notice of the intended sale, and the time and place thereof, shall be given to the delinquent taxpayer and to all persons appearing of record to have an interest in the property at least 10 days before the date set for the sale by enclosing the notice in an envelope addressed to the taxpayer at his last known residence or place of business in this State as appears upon the records of the board, if any, and depositing it in the United States registered mail, postage prepaid. The notice shall also be published for at least 10 days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper of general circulation in the county, the notice shall be posted in three public places in the county for the 10-day period. The notice shall contain a description of the property to be sold, a statement of the amount of the taxes, penalties, and costs, the name of the taxpayer, and the further statement that unless the taxes, penalties, and costs are paid on or before the time fixed

in the notice for the sale, the property, or so much thereof as may be necessary, will be sold in accordance with law and the notice.

32375. At the sale the property shall be sold by the board or by its authorized agent in accordance with law and the notice, and the board shall deliver to the purchaser a bill of sale for the personal property and a deed for any real property sold. The bill of sale or deed vests title in the purchaser subject to a right of redemption as prescribed in the Code of Civil Procedure upon sales of real property on execution. The unsold portion of any property seized may be left at the place of sale at the risk of the taxpayer.

32374. If upon the sale the moneys received exceed the amount of all license taxes, penalties, and costs due the State from the taxpayer, the board shall return the excess to him and obtain his receipt. If any person having an interest in or lien upon the property files with the board prior to the sale notice of his interest, the board shall withhold any excess pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of the taxpayer is not available, the board shall deposit the excess moneys with the State Treasurer, as trustee for the owner, subject to the order of the taxpayer, his heirs, successors, or assigns.

Article 4. Miscellaneous

32381. If any taxpayer is delinquent in the payment of any obligations imposed by this part, the board may give notice of the amount of the delinquency by registered mail to all persons having in their possession or under their control any credits or other personal property belonging to the taxpayer, or owing any debts to the taxpayer, at the time of the receipt by them of the notice. Thereafter any person so notified shall neither transfer nor make other disposition of such credits, personal property, or debts until the board has consented to a transfer or disposition or until 20 days have elapsed from and after the receipt of the notice. All persons so notified shall, within five days after the receipt of the notice, advise the board of all such credits, personal property, or debts, in their possession, under their control, or owing by them, as the case may be.

32382. The remedies of the State provided for in this chapter are cumulative, and no action taken by the board or Attorney General constitutes an election by the State or any of its officers to pursue any remedy to the exclusion of any other remedy for which provision is made in this part.

32383. Whenever any person liable for any tax is insolvent, whenever any person make a voluntary assignment of his assets, whenever the estate of a deceased person in the hands of executors, administrators, or heirs is insufficient to pay all the debts due from the deceased, or whenever the estate and effects of an absconding, concealed, or absent person are levied upon by process of law, the tax, together with interest and penalties attaching thereto, shall be first satisfied. This section shall not be construed to give the State a preference over any recorded lien which attached prior to the date when the tax became a lien.

CHAPTER 8. OVERPAYMENTS AND REFUNDS

Article 1. Claim for Refund

32401. If the board determines that any amount of tax, penalty, or interest has been paid more than once or has been erroneously or illegally collected or computed, the board shall set forth that fact in the records of the board and shall certify to the State Board of Control the amount collected in excess of what was legally due and the person from whom it was collected or by whom paid. If approved by the State Board of Control the excess amount collected or paid shall be credited on any amounts then due from the person under this part, and the balance shall be refunded to the person, or his successors, administrators, or executors.

32402. No refund shall be allowed unless a claim therefor is filed with the State Board of Equalization within three years from the fifteenth day after the close of the monthly period for which the overpayment was made, or, with respect to determinations made under Articles 2 or 3 of Chapter 6 of this part, within six months after the determinations become final, whichever period expires the later. No credit shall be allowed after the expiration of the period specified for filing claims for refund unless a claim for credit is filed with the board within such period. Every claim for refund or credit shall be in writing and shall state the specific grounds upon which the claim is founded.

32403. Failure to file a claim within the time prescribed in this article constitutes a waiver of all demands against the State on account of the overpayment.

petition for formation of the district, the board may call a special district election and submit to the electors of the district, or submit to them at the next general district election, the question of whether the district should adopt such additional purpose or purposes. If a majority of the votes cast at the election upon such proposition shall be in favor of the adoption of such additional purpose or purposes, then the powers of the district may be exercised therefor.

"Enterprise" as used in this section means a revenue producing system, plant, works, or undertaking used for or useful in carrying out any one or more of the purposes specified in Section 61600. Revenue bonds issued and sold pursuant to this section shall not constitute "funded indebtedness" of the district as that term is used in Section 61613 and the limitations of Section 61613 shall not apply to revenue bonds issued pursuant to this section. In connection with the authorization, issue and sale of revenue bonds pursuant to this section and so long as any of such bonds shall remain outstanding, a district may exercise, in addition to the powers conferred by this section, any or all of the powers of local agencies provided for in said Chapter 6, Part 1, Division 2, Title 5 of this code.

A district may provide that charges for any services or facilities shall be collected together with and not separately from the charges for other revenues or facilities rendered by it, and that all charges shall be billed upon the same bill and collected as one item. If all or part of a bill is not paid, the district may discontinue any or all services or facilities for which the bill is rendered.

A district may provide for the collection of charges. Remedies for their collection and enforcement are cumulative and may be pursued alternatively or consecutively as the local agency determines.

A district may provide for a basic penalty of not more than 10 percent for nonpayment of the charges within the time and in the manner prescribed by it, and in addition may provide for a penalty of not exceeding one-half of 1 percent per month for nonpayment of the charges and basic penalty. All contracts for the construction of any unit of work, except as hereinafter provided, estimated to cost in excess of two thousand dollars ($2,000) shall be let to the lowest responsible bidder after competitive bidding. The board shall have the right to reject any and all bids, in which case the board may call for new bids. In the event no proposals are received or where the estimated cost of such work does not exceed the sum of two thousand dollars ($2,000) or where the work consists of emergency work necessary in order to protect life and property, the board of directors may have said work done by force account. The district shall have the power to purchase in the open market without calling for bids, materials and supplies for use in any work therewith either under contract, or by force account; provided, however, that materials and supplies for use in any new construction work or improvement, except work referred to in the preceding sentence, may not be purchased if the cost thereof exceeds two thousand dollars ($2,000), without calling for bids and awarding the contract therefor to the lowest responsible bidder.

61626.6. Whenever a district formed under this division acquires a private utility engaged in furnishing services to consumers, or any existing improvement or facility used for such purposes, it shall assume the obligation of the private utility to serve such consumers and their successors in interest both inside and outside the boundaries of the district.

61631. Compliance with Sections 61628 and 61630 is a condition precedent to the filing or maintaining of any action for the injury or damage.

61632. The district may employ counsel to defend any action brought against it or any of its officers, agents, or employees on account of any injury, taking, damage, or destruction, and the fees and expenses, including the cost of any bonds and undertakings, involved therein shall be a lawful charge against the district.

61633. If an officer, agent, or employee of the district is held liable for any act or omission in his official capacity, except in case of actual fraud or actual malice, and any judgment is rendered thereon, the district shall pay the judgment without obligation for repayment by the officer, agent, or employee.

(b) At that time and place any person interested, including all persons owning property in the district, will be heard upon the questions stated in the resolution.

61653. At the time and place fixed for the hearing on the resolution declaring the necessity for incurring the bonded indebtedness, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing.

61654. At the hearing any person interested, including persons owning property within the district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness.

61655. At the conclusion of the hearing, the board shall by resolution determine whether the whole or part of the district will be benefited by the accomplishment of the purpose stated in the resolution.

61656. If the board determines that the whole of the district will not be benefited, the resolution shall also describe the portion of the district which will be benefited, in a manner sufficient for identification, which portion of the district described in the resolution shall thereupon constitute and be known as "Improvement District No. _____ of _____ District."

61657. After the formation of an improvement district within a district pursuant to this article, all proceedings for the purpose of a bond election within the improvement district and for the purpose of taxation for the payment of the bonds and interest shall be limited, and apply only to the improvement district.

61658. The determination of the board that the whole of the district will be benefited by the bond issue or that only a described portion of the district will be benefited by the bond issue is final and conclusive.

61659. After the board has made its determination pursuant to Section 61655, if it deems it necessary to incur the bonded indebtedness, it shall by resolution state:

(a) That it deems it necessary to incur the bonded indebtedness.

(b) The purpose for which the bonded indebtedness will be incurred.

(c) Either of the following in accordance with its previous determination:

(1) That the whole of the district will be benefited by incurring the bonded indebtedness.

(2) That a portion of the district will be benefited by incurring the bonded indebtedness, which portion shall be described as it is described in the resolution of the board made pursuant to Section 61655.

(d) The amount of debt to be incurred.

(e) The maximum term the bonds to be issued shall run before maturity, which term shall not exceed 40 years.

(f) The annual rate of interest to be paid, which rate shall not exceed 7 percent, payable annually or semiannually, or in part annually and in part semiannually.

(h) The date of the special district election (which may be consolidated with a general district election) at which such proposition shall be submitted to the voters; the hours between which the polls shall be open; the boundaries of voting precincts within the district or portion thereof benefited by incurring the bonded indebtedness; the location of polling places; and the names of the officers selected to conduct such election in each precinct, who shall consist of one judge, one inspector, and two clerks.

61660. The resolution provided for in Section 61659 shall constitute the notice of such special bond election and such resolution shall be published in a newspaper of general circulation circulating within the district at least twice with an interval of at least six days between the first and last publication. Publication shall be complete at least six days before the election.

61661. The board shall provide for holding the election in the same manner as provided by law in respect to district elections so far as applicable, except as otherwise provided in this chapter.

61663. Every elector residing within the area designated in the resolution adopted pursuant to Section 61659, but no others, may vote on the proposition to authorize the bonds. If the area does not include the entire district a separate ballot shall be prepared for the vote upon such proposition and only the voters entitled thereto shall be given such ballots.

61670. Notwithstanding any other provision of this division, a majority vote shall be sufficient to authorize the issuance of revenue bonds, and a two-thirds vote shall be required only for the issuance of general obligation bonds.

61671. If more than two-thirds of the votes cast at the election are in favor of incurring the indebtedness, the board may, by resolution, at the time or times it deems proper, provide for the following:

(a) The form of the bonds.

(b) The execution of the bonds.

(c) The issuance of any part of the bonds.

61671.1. The bonds shall be signed by the president and countersigned by the secretary and the coupons shall be signed by the secretary. All signatures except that of the secretary on the bonds may be printed, lithographed or engraved. If any officer whose signature appears on the bonds or coupons ceases to be such officer before the delivery of the bonds, his signature is as effective as if he had remained in office. All bonds shall be payable at the office of the county treasurer, who is the depositary of the district pursuant to Section 61730.

61671.2. Prior to the issuance of any bonds, the legislative body many commence a special proceeding in the superior court of the county to determine the right to issue the bonds and their validity. The proceeding shall be instituted and prosecuted in the manner provided by Sections 22670 to 22684, inclusive, of the Water Code. These sections apply to and govern all such proceedings instituted pursuant to this part. The proceeding is in rem and the judgment rendered is conclusive against all persons, the city, and the State.

61672. The district may sell the bonds so issued at the times or in the manner the board deems to be to the public interest; provided, that all bonds shall be sold on sealed proposals to the highest bidder after advertising for bids by publication of notice of sale once, not less than 10 days prior to the date of sale, in a newspaper of general circulation circulating in the district. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

61673. Any bonds issued by any district organized under the provisions of this act are hereby given the same force, value and use as bonds issued by any municipality and shall be exempt from all taxation within the State.

All bonds issued by any district payable from taxes are legal investments for all trust funds, for the funds of all insurance companies, the state school funds, and any funds which may be invested in bonds of cities, counties, cities and counties, school districts, or municipalities in the State.

All revenue bonds issued by any district are subject to investigation by the Districts Securities Commission and, if certified by said commission, pursuant to Division 10 of the Water Code, are legal investments for all trust funds, for the funds of all insurance companies, the state school funds, and any funds, other than funds of savings banks, which may be invested in bonds of cities, counties, cities and counties, school districts, or municipalities in the State.

61674. The board may, by resolution, do the following:

(a) Submit to the voters a measure to issue new bonds to refund any or all of the district bonds outstanding.

(b) Submit to the voters of any improvement district of the district a measure to issue new bonds to refund any improvement district bonds outstanding.

61675. The measure may be voted on at any district election or a special election may be called for the purpose.

61676. The procedure upon the election shall be in accordance, so far as applicable, with the procedure upon an original issue of bonds, except that:

(a) No hearing need be held upon the question whether the bond issue will benefit the entire district or only a portion thereof.

(b) The vote of a majority of the voters voting upon the measure is sufficient to authorize the issue of refunding bonds.

61677. The refunding bonds may be issued and sold in the manner and form prescribed for an original issue of bonds.

61678. Refunding bonds may, if the holders of bonds of an original issue and the board so agree, be exchanged for original bonds.

61679. The face value of refunding bonds exchanged for original bonds shall not exceed the face value of the original bonds.

61680. The board may raise money by rates or taxes to pay principal and interest of the refunding bonds in the same manner as prescribed for payment of bonds of an original issue.

61681. Any bonds issued by the district may be made callable by resolution of the board adopted at or prior to the time of issuing the bonds.

61682. When bonds are made callable, a statement to that effect shall be set forth on the face of the bond.

61683. Callable bonds may be redeemed on any interest payment date prior to their fixed maturity in such amounts and manner and at such prices as the board may prescribe in the resolution provided for in Section 61681.

61684. Notice designating the bonds called for redemption shall be published once a week for three successive weeks in a newspaper of general circulation circulated in the county in which the office of the district is situated.

61685. The first publication of the redemption notice shall be not less than 30 nor more than 90 days prior to the date fixed for redemption.

61686. If on the date fixed for redemption the district has provided funds available for payment of the principal and interest of the bonds called, interest on them ceases.

61687. No district shall incur general obligation bonded indebtedness in excess of twenty-five (25) percent of the assessed valuation of all taxable property within the district.

CHAPTER 5. IMPROVEMENT DISTRICTS

When formed, such improvement districts shall be governed in the same manner as improvement districts in irrigation districts.

61711. The board of directors of a district shall have the same rights, powers, duties and responsibilities with respect to the formation and government of improvement districts in districts as the board of directors of an irrigation district has with respect to improvement districts in irrigation districts.

61717. The powers and duties conferred by said acts upon boards, officers and agents of cities shall be exercised by the board, officers and agents of the district, respectively.

61718. The improvements authorized to be constructed or acquired by this chapter are restricted to those permitted to be constructed or acquired pursuant to Section 61600.

61719. No assessment or bond hereafter levied or issued shall become a lien and no person shall be deemed to have notice thereof until a certified copy of the assessment in the proceedings under any of said acts and the diagram attached to said assessment shall be recorded in the office of the county surveyor of each county in which any part of the lands assessed are located and with the superintendent of streets of each city in which any part of said lands are located.

Any such trustee, fiscal agent, or depositary shall be a bank or trust company qualified to do business in the State.

CHAPTER 6.1. ALTERNATIVE DEPOSITARY OF DISTRICT MONEY

61737.01. The provisions of this chapter are alternative to those provided in Chapter 6 of this part.

61737.02. The board may by resolution designate a bank as depositary of any or all of its funds. If such depositary is not designated for all of its funds, it shall designate what funds are to be deposited with such depositary. The county treasurer shall be the depositary for all funds not so designated.

61737.03. The charges of any depositary selected shall be a proper expense of the district.

61737.04. The board shall appoint a person who shall be known as finance officer, who shall serve at its pleasure. It shall fix the amount of his compensation. CHAPTER 7. COOPERATION WITH THE UNITED STATES

61740. Community service districts may cooperate and contract with the United States under the Federal Reclamation Act of June 17, 1902, and all acts amendatory thereof or supplementary thereto or any other act of Congress heretofore or hereafter enacted permitting cooperation, to the extent that it is consistent with state law, for the purpose of acquiring or constructing water distribution facilities and for the purchase, delivery and distribution of water to the district.

61741. A district may submit any contract or proposed contract to the superior court of the county in which is situated the office of the board to determine the validity thereof in the same manner as provided for the submission of such contracts by irrigation districts in Section 23225 of the Water Code.

CHAPTER 8. SHORT TERM BORROWING

61742. A district may borrow money and incur indebtedness as provided in this chapter by action of the board and without the necessity of calling and holding an election in the district.

61743. Indebtedness may be incurred pursuant to this chapter for any purpose for which the district is authorized to expend funds, including provisions for payment of current expenses of the district and for the funding or refunding of any outstanding warrants issued for the payment of current expenses.

61744. Indebtedness incurred under this chapter shall be evidenced by notes of the district payable in not to exceed five years from their date and bearing interest at not exceeding 6 percent per annum, payable annually or semiannually.

61745. Such notes shall be issued in the name of the district after the adoption by a two-thirds vote of all of the members of the board on a resolution setting forth the form of the note, the maturity date or dates thereof, and the manner of execution thereof.

61746. The board may, in its resolution authorizing the issuance of notes, provide that the note shall be subject to call and redemption prior to maturity, at the option of the district, at such price or prices as may be fixed in the resolution, not exceeding a premium of 6 percent of the par value of the note so subject to redemption. The resolution shall fix the method of giving notice of redemption to the holders of notes to be redeemed and the price or prices at which the note shall be subject to redemption. Notes so subject to call and redemption prior to maturity shall contain a recital to that effect on their face, and no note shall be subject to call or redemption prior to its fixed maturity date unless it contains such recital.

61747. Notes issued under this chapter shall be offered for public sale upon notice inviting sealed bids therefor. Such notice shall be given by publication once in a newspaper of general circulation printed and published in the district or if such a newspaper is not printed and published in the district by posting in three public places in the district, and the sale shall not be held before 10 days after such publication or posting. The board may reject all bids received on public sale and either readvertise or sell the notes at private sale, but no sale at private sall shall be made for less than the par value of the note and accrued interest thereon.

61748. Notes issued under this chapter shall constitute general obligations of the district for the payment of both principal and interest of which all property in the district subject to taxation by the district shall be taxed without limitation of rate or amount. It shall be the duty of the board at the time and in the manner provided in Part 6 of this division for levying annual taxes to fix an ad valorem rate of tax sufficient to pay the principal of and interest on all notes as the same become due. Such ad valorem taxes shall be in addition to all other taxes in this division provided for, shall not be subject to the limitation provided in Section 61755.5, and when collected shall be used for no purpose other than the payment of said notes and the interest thereon.

61749. Notes shall not be issued under this chapter by any district in any one fiscal year in excess of an amount equal to one dollar ($1) for each acre in the district.

PART 6. TAXES

CHAPTER 1. GENERAL PROVISIONS

61750. If from any cause the revenues of the district shall be inadequate to pay the principal or interest on any bonded debt as it becomes due, the board must, or if funds are needed to carry out the objects and purposes of the district, which cannot be provided for out of the revenues of the district, then the board may levy a tax for such purposes as herein provided.

61751. The board shall state the purposes for which such taxes are necessary, and must fix, by ordinance, the amount of money necessary to be so raised by taxation. If the amount to be raised at any one time by taxation for a purpose other than interest or sinking fund payments exceeds the sum of fifty thousand dollars ($50,000), such ordinance shall not go into effect before 30 days from its final passage.

61752. The board of directors shall avail itself of the equalized assessment rolls of the counties in which the district is situated, and take such assessments as the basis for district taxations.

61753. All taxes shall be collected by the county assessors and tax collectors of the counties in which the district is situated.

61754. The said county assessors must, on or about the third Monday in August of each year, transmit to the board a statement in writing showing the total value of all property within the district, which value shall be ascertained from the equalized assessment rolls of the respective counties.

61755. The board shall, on the first weekday in September, or if such weekday falls upon a holiday then on the first business day thereafter, fix the rate of taxes, designating the number of cents upon each hundred dollars of assessed valuation, which rate of taxation shall be sufficient to raise the amount previously fixed by the board, as hereinabove prescribed; which acts by the board are a valid assessment of such property and a valid levy of such taxes so fixed. The board must immediately thereafter transmit to the said county assessors a statement of such rate so fixed by the board.

61755.5. Unless a majority of the electors voting at an election held for that purpose are in favor of it, the annual property tax rate shall not exceed one dollar ($1) per one hundred dollars ($100) of assessed valuation of all taxable property within the district. This section does not prevent a community service district having a validly contracted general obligation bonded indebtedness from levying and collecting taxes for the payment of such indebtedness and the interest thereon, in addition to the taxes authorized to be levied and collected pursuant to this section.

61756. Any district taxes required to be levied to pay the interest on or principal of any bonded indebtedness incurred by the district for the benefit of less than the whole of the district shall be levied on and shall be a lien upon only the property benefited by the bonded debt as stated in the resolution of the board declaring the

necessity to incur the debt. Where any district taxes are to be levied upon less than the whole district the board shall furnish the State Board of Equalization and said county assessors with a description of the property upon which such taxes are to be levied and the county assessors shall include in the statement furnished pursuant to Section 61754 the total value of all property so described.

61757. The said auditors must then compute and enter in a separate column in the assessment book or assessment books, to be headed "_____ district tax" the respective sums in dollars and cents or dollars or cents to be paid as a district tax on the property therein enumerated and assessed as being in the district, using the rate or rates of levy so fixed by the board and the assessed value as found in such assessment books.

61758. Such taxes so levied shall be collected at the same time and in the same manner as county taxes; and when collected the net amount, as ascertained as hereinafter provided, shall be paid to the county treasurer who is the depositary of the district pursuant to Section 61730, under the general requirements and penalties provided by law for the settlement of other taxes.

61759. All taxes levied under the provisions of this law shall be a lien on the property on which they are levied; and the enforcement of the collection of such taxes may be had in the same manner and by the same means as is provided by law for the enforcement of liens for state and county taxes, all the provisions of law relating to the enforcement of the latter being hereby made a part of this law, so far as applicable.

61760. Whenever any real property situate in any district has been sold for taxes and has been redeemed, the money paid for such redemption shall be apportioned and paid by the county treasurers receiving the same to such district, in the proportion which the tax due to such district bears to the total tax for which such property was sold.

61761. Each county auditor, assessor, and tax collector affected by the provisions of this act shall annually file with the board of supervisors of his county itemized statements showing the additional expense to his office caused by the performance of the duties imposed upon him or his office under the provisions of this act, and upon the filing of such statements the board of supervisors shall, by an order spread upon its minutes, deduct such expenses from the tax money of the district in the amount determined by agreement between the district and the board of supervisors, while in the hands of the tax collector, and transfer the amount deducted into the county salary fund; provided, that not more than one-half of 1 per centum on the amount collected shall be so charged or deducted by any county. The boards of supervisors of such counties may provide such extra help for their county offices or officers as in their judgment may be necessary for the proper performance of their duties hereunder.

PART 7. CHANGES IN ORGANIZATION

CHAPTER 1. ANNEXATION

61800. Contiguous land not a part of the district which consists of any unincorporated territory may be annexed to the district.

61801. The land annexed shall be susceptible of service by the district and of being benefited by the district.

61802. A majority in number of the holders of title to any tract of land proposed to be annexed and who are also the holders of title to a majority in acreage and assessed value of the land, or a majority in number of the voters residing within the tract, may file with the secretary a petition signed by them containing a description of the land proposed to be annexed sufficient to identify it and praying that the land be annexed in the district.

61803. A guardian, executor, administrator, or other person holding property in a trust capacity under appointment of court may sign any petition or protest provided for in this article when authorized by the proper court, which authorization may be made without notice.

61804. The petition may consist of one or more separate instruments and each signature thereto shall be acknowledged or proved in the manner required to entitle an instrument to be recorded.

61805. The last equalized assessment roll of each county containing land proposed by the petition to be included is prima facie evidence of the ownership of the land in that county proposed to be annexed and the names and number of the holders of title to the land.

61806. If the owners of a majority in acreage and assessed value of the land described in the petition file a written protest at or before the hearing on the petition, the land shall not be annexed to the district.

61807. The secretary shall commence the publication of a notice of the filing of the annexation petition not more than 40 days after the filing of the petition.

61808. The notice shall be published in a newspaper of general circulation circulated within the district at least twice with an interval of at least six days between the first and last publication.

61809. The notice shall contain:
(a) A statement of the purpose of the petition.
(b) A description of the land proposed to be annexed.
(c) The time of the hearing.
(d) An announcement that any persons interested in the proposed annexation may appear at the office of the board at the time of the hearing and file objections in writing showing cause, if any they have, why the land or any of it should not be annexed as proposed in the petition.

61810. The time of the hearing specified in the notice shall be the regular meeting of the board next after the giving of the notice is complete.

61811. The secretary shall, within two days after first publication of the notice, mail a copy to each person who has not signed the petition and to whom any land proposed to be annexed to the district was assessed on the last equalized assessment roll of the county containing that land at that person's address appearing on the assessment roll.

61812. Irregularity or defect in mailing or failure to mail copies of the notice shall not in any manner impair nor invalidate the annexation of the land to the district.

61813. The petitioners shall advance to the secretary the cost of publication and mailing of the notice of the annexation hearing, and unless so advanced at the time of filing the petition or as provided by the board the secretary shall not publish nor mail the notice.

61814. At the time and place specified in the notice or at the time to which the hearing may be adjourned the board shall hear the petition and all objections to it presented in writing.

61815. The board after the hearing of any annexation petition shall by ordinance order the annexation of all or any part of the land described in the petition when as to the land to be annexed the board finds that the following are true:
(a) The petition complies with this chapter.
(b) The annexation of the land is authorized by this chapter.
(c) The annexation will be for the best interest of the district.
(d) The annexation of the land will be for the best interest of the land.

61816. The board shall not determine that only a portion of the land shall be annexed unless the petitioners include a majority in number of the holders of title to the portion of the lands which is to be annexed and represent a majority in acreage and assessed value of that land.

61817. The annexation ordinance shall contain a description of the land annexed to the district sufficient to identify the land.

61818. A finding by the board in the annexation ordinance in favor of the genuineness and sufficiency of the petition for annexation and notice of the hearing of it is conclusive against all persons except the State upon suit by the attorney general commenced within six months after the adoption of the ordinance annexing land to the district.

61819. The board, without petition except as required by the laws of the United States, may by resolution propose the annexation to the district of any public land of the United States which might, if privately owned, be annexed on petition.

61820. After the adoption of a resolution pursuant to Section 61819, the secretary shall publish a notice and otherwise comply with Sections 61807 to 61813, inclusive.

61821. The board shall hold a hearing pursuant to the notice and if it finds that all requirements of this chapter and of the laws of the United States have been complied with, and that the annexation of all or part of the land is authorized by this chapter and will be for the best interest of the district and of the land to be annexed, the board shall by ordinance describe the land which is to be annexed and declare that the land is annexed to the district.

61822. If no petition for the holding of an election for the disapproval and veto by the electors of any ordinance annexing land to the district is filed within the period provided by Section 61451 after the adoption of the ordinance, or if the petition is filed and at the election thereon the voters shall not disapprove and veto the ordinance, it shall be effective.

61823. If the ordinance annexing land to the district is effective, the president and secretary shall, if no petition for disapproval and veto of such ordinance is filed within the time provided by law, or if such petition is filed and upon the election the electors shall not disapprove and veto said ordinance, file with the Secretary of State and with the county recorder of the county in which the district is situated certified copies of the ordinance and certificates stating said facts.

61824. Within 10 days after he receives the certified copies of the ordinance and certificate of the president and secretary the Secretary of State shall issue his certificate reciting the annexation to the district of the land, describing it, and shall transmit to and file with the county clerk of the county in which the district is situated a certified copy of the certificate.

61825. From and after the date of the certificate of the Secretary of State the land therein described is annexed to the district and forms a part thereof and is subject to existing bond issues and indebtedness of the district.

61826. When the board finds that the annexation of any land without condition would work an injury as to the land already within the district, the board may by resolution prescribe any conditions upon the annexation that the board deems just, which may include:

(a) Any condition which the board deems to be reasonably necessary to avoid injury as to the land already in the district.

(b) Payment of special taxes upon the land to be annexed.

b. To recommend to the director administrative rules and regulations relating to the marketing order.

c. To receive and report to the director complaints of violations of the marketing order.

d. To recommend to the director amendments to the marketing order.

e. To assist the director in the assessment of members of the industry and in the collection of funds to cover expenses incurred by the director in the administration of the marketing order.

f. To assist the director in the collection of such necessary information and data as the director may deem necessary to the proper administration of this chapter.

(3) In addition to the advisory board there may be established one or more special committees or subcommittees to assist the advisory board in carrying out its duties and functions. Upon approval of the director each advisory board may establish committees or subcommittees to carry out assigned duties and functions and

designate the members or alternate members of the board to serve upon such committees. If the marketing order so authorizes or upon recommendation of the board, the director may authorize the establishment of special committees or subcommittees of persons who are not members or alternate members of the board to perform specific duties and functions; provided, that the members and alternate members of any such special committee or subcommittee shall be appointed by the director.

Any action of any committee, special committee or subcommittee of the board shall be subject to final approval by the board. Members and alternate members of any committee, special committee or subcommittee whether by appointment or approval of the director shall be entitled to reimbursement for actual expenses incurred while acting in their authorized capacities.

(b) Subject to the legislative restrictions and limitations set forth herein any marketing order issued by the director pursuant to this chapter may contain any or all of the following provisions for regulating or providing methods for regulating producer marketing or the handling or any of the operations of processing or distributing by handlers of any agricultural commodity within this State, but no others:

(1) Provisions for determining the existence and extent of the surplus of any agricultural commodity, or of any grade, size or quality thereof, and providing for the control and disposition of such surplus, and for equalizing the burden of such surplus elimination or control among the producers, processors, distributors or other handlers affected. Notwithstanding any other appropriate means of equalizing the burden of surplus control and the elimination thereof as provided in this chapter, provision may be made for the creation of a stabilization fund to be used for purchasing or otherwise acquiring any portion of the surplus of any agricultural commodity either in fresh or processed form, except when processed in hermetically sealed containers, and for the diversion of such surplus quantity of such commodity so acquired into noncompetitive or by-products uses or for disposing of such surplus in noncommercial channels. Moneys for such stabilization fund shall be provided by means of the establishment of an assessment rate for such purpose levied upon producers or handlers or upon both producers and handlers. Such assessment rate shall be based upon the units in which such agricultural commodity is handled or marketed or upon any other uniform basis which the director determines to be reasonable and equitable. For convenience of collection, the director may collect any producer assessments from handlers of such commodity. Handlers paying such assessments for and on behalf of any producers are authorized to deduct such producer assessments from any moneys owed by such handlers to such producers.

(2) Provisions for limiting the total quantity of any agricultural commodity, or of any grade, size or quality thereof, which may be marketed by producers or processed, distributed or otherwise handled within this State during any specified period or periods, by any and all persons engaged in such producer marketing, processing, distributing or handling; provided, that any such limitation shall be applied under a uniform rule applicable to all such persons so regulated. The total quantity of any such commodity so regulated and permitted to be marketed by producers, processed, distributed or otherwise handled, shall not be less than the quantity which the director finds is reasonably necessary to supply the market demands of consumers of such commodity.

(3) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may purchase or acquire from, or handle on behalf of, any and all producers thereof, within this State during any specified period or periods under a uniform rule, applicable to all handlers so regulated based upon the amounts produced or sold by such producers in a prior period which the director finds to be representative, or upon the current season's production or sales of such producers, or both, to the end that the total quantity of such commodity or of any grade, size or quality thereof, so purchased or handled within this State shall be apportioned equitably among the producers thereof.

(4) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may process, distribute or handle within this State under a uniform rule, applicable to all handlers so regulated, based upon the quantities of such commodity or of any grade, size or quality thereof of the current season's crop which each such handler has available for such processing, distribution or handling, or upon the quantities of such commodity or of any grade, size or quality thereof so processed, distributed or handled by each handler in a prior period which the director finds to be representative, or based upon both, to the end that the total quantity of such commodity or any grade, size or quality thereof, processed, distributed or handled within this State during any specified period or periods shall be equitably apportioned among all such handlers thereof.

(5) Provisions regulating the period, or periods, during which any agricultural commodity, or any grade, size or quality of such commodity, may be processed, distributed or otherwise marketed within this State by any and all persons engaged in such processing, distributing or marketing within this State; provided, that the total quantity of such commodity so regulated and permitted to be processed, distributed or otherwise marketed during such period or periods, shall not be less

than the quantity which the director finds is necessary to reasonably supply the needs of consumers of such commodity.

(6) Provisions for the establishment of surplus, stabilization, or by-product pools for any agricultural commodity or of any grade, size, quality or condition thereof, and providing for the sale of the commodity in any such pool and for the equitable distribution among the persons participating therein of the net returns derived from the sale of such commodity. Whenever the marketing order authorizes the establishment of any such pool or pools the advisory board shall have power to receive such commodity from each producer or handler and to handle the same according to the grade, size, quality or condition thereof and to account to each producer or handler participating therein upon a pro rata basis for the net proceeds derived from the sale thereof.

The contents of any surplus pool shall not be marketed by the board in any form which would compete directly with that portion of the commodity which is marketed in regular channels of trade. However, any portion of any surplus pool may be transferred by the board upon any gratuitous basis to charitable organizations and other similar agencies under proper safeguards to insure that none of such commodity shall compete directly with the unrestricted portion of such commodity. The board may dispose of the contents of a stabilization pool in the regular marketing channels in such manner and at such times as the board deems advisable, consistent with the maintenance of stabilized marketing conditions for such commodity. The board may dispose of the contents of any by-product pool only for by-products or for other similar purposes under proper safeguards to prevent such portion of the commodity so disposed of from directly competing with that part of the commodity which is marketed in the usual form or in the regular channels of trade.

Whenever the marketing order authorizes the establishment of a surplus, stabilization, or by-product pool, the board shall have authority to arrange for and operate any necessary facilities for the storing, financing, grading, packing, servicing, processing, preparing for market, selling, and disposing of the contents of any pools provided for in this section; provided, however, the board shall not have authority to engage in commercial warehousing.

The board shall have power to pledge all of the commodity in any such pools with banks or other lending agencies for the purpose of obtaining loans thereon. The board shall have title, for the purpose of financing and handling, to all of the commodity in any such pools.

Whenever the marketing order authorizes the establishment of any type of pool authorized in this section, the board shall have authority to create, by a uniform assessment upon producers, or upon some other uniform and equitable basis, maintain, and disburse an equalization fund to be used for the removal of any inequalities between producers or handlers participating in any pool resulting from errors in estimating production or surplus or for indemnifying producers whose production, in whole or in part, is diverted in green form or otherwise from normal marketing outlets or diverted to by-products, relief, or other noncompetitive purposes pursuant to the provisions of the marketing order.

(7) Provisions establishing or providing for establishing with respect to any agricultural commodity either as delivered by producers to handlers or processors, or as handled, processed, or otherwise prepared for market, or as marketed by producers, handlers or processors: (A) grading standards of quality, condition, size, maturity or pack, which standards may include minimum standards provided the standards so established shall not be established below any minimum standards prescribed by law for such commodity; and (B) uniform inspection and grading of such commodity in accordance with the standards so established.

(8) Provisions for the establishment of plans for advertising and sales promotion to maintain present markets or to create new or larger markets for agricultural commodities grown in the State of California, or for the prevention, modification or removal of trade barriers which obstruct the free flow of agricultural commodities to market. The director is hereby authorized to prepare, issue, administer and enforce plans for promoting the sale of any agricultural commodity.

Provided, that any such plan shall be directed toward increasing the sale of such commodity without reference to a particular brand or trade name, and

Provided further, that no advertising or sales promotion program shall be issued by the director which shall make use of false or unwarranted claims in behalf of any such product, or disparage the quality, value, sale or use of any other agricultural commodity.

(9) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices, now prohibited by law, applicable to the processing, distribution or handling of agricultural commodities within this State, the director is hereby authorized to include in any marketing order issued hereunder provisions designed to correct any trade practice affecting the processing, distributing or handling of any agricultural commodity within this State which the director finds, after a hearing thereupon in which all interested persons are given an opportunity to be heard, is unfair and detrimental to the effectuation of the declared purposes of this chapter.

(10) Provisions for the application for, review, certification and equitable payment of, production adjustment benefits to growers from funds collected for such purpose on a uniform basis from all commercial growers of any agricultural commodity in the State, for which production adjustment payments are made. Such funds may be supplemented by funds, if any, received from federal, state or other agencies for such purpose.

No program of production adjustment adopted hereunder shall authorize payments for the removal of acreages of trees or vines of the species, variety or varieties specified in the program which have, during the three years immediately preceding the date of application, produced an annual yield per acre in excess of the comparably computed average yield from bearing trees or vines of the same species, variety or varieties for the State as a whole, such yields and averages to be determined by the director from statistical data compiled by state or federal agencies or such other data as the director deems to be representative and reliable.

(11) Provisions for carrying on research studies in the production, processing or distribution of any agricultural commodity and for the expenditure of moneys for such purposes. In any research in production or processing carried on hereunder, the Dean of the College of Agriculture of the University of California and the advisory board provided for in Section 1300.15 hereof shall cooperate in selecting the research project or projects to be carried on from time to time. Insofar as practicable such projects shall be carried out by said College of Agriculture, but if the dean of said college and the advisory board determine that the college has no facilities for a particular project or that some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the dean and the advisory board.

(12) Provisions establishing or providing authority for establishing, for any agricultural commodity, either as such commodity is produced or is delivered by producers to handlers, or as handled or otherwise prepared for market, or as marketed by producers or handlers, an educational program designed to acquaint producers, handlers or other interested persons with quality improvement, including sanitation practices, procedures or methods as applied to such commodity.

(c) In addition to authority to issue marketing orders regulating the processing or preparation for marketing of any or all portions of any agricultural commodity processed within this State, and in addition to authority to issue marketing orders regulating the distribution of any or all portions of any agricultural commodity within this State and subject to the legislative restrictions and limitations of Section 1300.14 of this chapter, the director may also issue marketing orders regulating the handling, processing, preparation for marketing or marketing of any or all portions of any agricultural commodity produced in this State for which marketing regulatory powers are not being exercised by the Federal Government under the provisions of the Marketing Agreement Act of 1937, as amended, being Public Law No. 137, Seventy-fifth Congress, Chapter 296, First Session, 7 U. S. C. A. 674, 50 Statute 249."

Amendments read, and adopted.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1392:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 21, 1955

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 1392, "An act to amend Sections 19601, 19601.5, 19601.6, 19601.7 19604, 19607.1, 19607.2, 19607.4, 19607.6, 19608, 19610, 19611, and 19613 of, to add Sections 19608.1, 19611.3, and 19614.1 to, and to repeal Section 19620 of, the Education Code, relating to child care centers, making an appropriation, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

Unless a bill is passed continuing child care centers, it will be necessary to take steps prior to June 1, to terminate them, and since this would cause serious inconvenience and loss of time, energy, and result in confusion, it appears necessary that this bill be passed prior to the passage of the Budget Bill.

I therefore recommend consideration of Senate Bill No. 1392 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 11, 1955

Hon. A. W. Way

Rates of Highway Carriers—No. 11367

DEAR SENATOR WAY:

Question

With respect to Senate Bill No. 976, as amended May 3, 1955, you have asked us the following question: Assume that a company in San Francisco receives an order from a buyer for condensed milk or dry milk, which is to be shipped to another state, territory, or country. The milk is to be shipped originally from a concern in Humboldt County to San Francisco for further transportation. Can the Public Utilities Commission, under the bill, regulate the transportation rates between the point of origin to dockside or extra state places?

Opinion

If the original written shipping instructions show that such products are to be shipped to another state, territory, or foreign country, the Public Utilities Commission, under the bill, would not be empowered to regulate the rates of the transportation by highway permit carrier of such products between Humboldt County and San Francisco.

Analysis

Senate Bill No. 976, as amended May 3, 1955, would add Section 3671 to the Public Utilities Code (as part of the Highway Carriers' Act), to read as follows:

> "3671. Nothing in this chapter shall be construed to authorize the commission to establish or regulate the rates for transportation between points in California of products of agriculture, including livestock, when moving in commerce with foreign nations or among the several states as evidenced by original written shipping instructions."

The bill would apply only to transportation by highway permit carriers (Sec. 3662, P. U. C.).

Applying the proposed section to the factual situation presented, it is clear that condensed milk and dry milk constitute products of agriculture. If the original written shipping instructions show that such products are to be shipped to another state or to a foreign country, then, under the section, the Public Utilities Commission would not be authorized to establish or regulate the rates for the transportation by highway permit carrier from Humboldt County to San Francisco.

In view of the limited time made available to us for preparation of this opinion, we are not expressing any opinion as to the validity of the bill.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By OWEN K. KUNS, Deputy

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 11, 1955

Hon. Luther E. Gibson
Senate Chamber

Direct Primary Election Date—No. 11445

DEAR SENATOR GIBSON: You ask what difficulties prevent the change of the direct primary election date to the last Tuesday in August.

If the date of the direct primary election is changed to the last Tuesday in August, there will be only 63 days between that election and the general election in those years in which the last Tuesday in August falls on August 31st and the first Tuesday after the first Monday in November, the date of the general election, falls on November 2d. Since this represents the shortest possible period intervening between the two elections, we have used it as a focal point in our examination of this matter.

Until 1944, the direct primary election was held on the last Tuesday in August. Since that time several changes have been made in the law which may make it quite difficult, if not impossible, to change it back to that date. Due to these changes, a considerably longer period of time is now required between the direct primary and general elections than was previously required. We believe that a comparison of the law as it existed prior to 1944 with the present law will reveal how this fact constitutes a serious obstacle to any attempt to change the date of the direct primary election to the last Tuesday in August.

Prior to 1944, the time required for the canvass of the returns at the direct primary election was 25 days. The counting of absentee ballots had to be commenced by the seventh day after election (Elec. C. Sec. 7801)*; the canvass of returns at the county level was required to be completed by the sixteenth day after election (Elec. C. Sec. 7964); and the Secretary of State had until the twenty-fifth day after election to

* Sections referred to in explaining the law existing prior to 1944 can be found in the 1939 Elections Code and in Chapter 26 of the Statutes of 1939, which established that code.

complete his compilation (Elec. C. Sec. 7971). Bearing in mind a 63-day interval between elections, there then would have remained 38 days until the general election.

The general election ballot took its final form on the twenty-fifth day prior to that election, that being the last day to omit the names of deceased candidates (Elec. C. Sec. 2898). Thus, once again assuming a 63-day interval between elections, there would have been an interval of 13 days between the completion of the canvass at the primary election and the day on which the general election ballot took its final form. During that interval the meetings of the state and county central committees were held at which vacancies caused by the disqualification of candidates at the primary could be filled.

The period for circulating nomination papers for an independent candidate was 25 days, commencing on the sixty-fifth day, and ending on the fortieth day, before the general election (Elec. C. Sec. 3084). While it is true that where only 63 days intervened between the elections, the first day for circulating such papers would have been two days prior to the primary election, a candidate was not precluded from waiting until that election was over before commencing such circulation. The loss of two days was apparently not too much of a handicap.

Several changes have been made in the law since 1944 which would seem to upset the balance then possible.

First, the last day for omitting the names of deceased candidates from the general election ballot has been changed from the twenty-fifth to the fortieth day prior to that election (Elec. C. Sec. 2898). Consequently, the general election ballot now assumes its final form on the fortieth, rather than the twenty-fifth, day before the election. (We understand that Los Angeles County needs at least 40 days in which to prepare, print, and distribute its ballots.) This 15-day increase would completely eliminate the 13-day interval between the canvass of the returns at the direct primary and the date on which the general election ballot takes its final form, which existed when the direct primary was last held on the last Tuesday in August. In fact, it would cause the two to overlap by two days. The preparation of the general election ballot would have to be commenced prior to the final determination of the results at the primary, an obvious impossibility. No time could be allowed for the state and county central committees to meet and fill the vacancies caused by the disqualification of candidates at the primary.

Secondly, as a result of the enactment of the so-called War Voters' Law (Stats. 3d Ex. Sess. 1950, Ch. 12; Stats. 1951, Ch. 842; and Stats. 1953, Ch. 291), the time for the canvassing of the returns at the direct primary has been extended 10 days to give voters overseas sufficient time in which to submit their absentee ballots. The counting of absentee ballots must now be commenced on the seventeenth, rather than the seventh day after election (Elec. C. Sec. 7801.5); the last day for the canvass at the county level has been moved from the sixteenth to the twenty-fifth day after election (Elec. C. Sec. 7964.1); and the Secretary of State is now required to complete his compilation by the thirty-fourth, rather than the twenty-fifth day after election (Elec. C. Sec. 7971.5). The overlapping mentioned in the previous paragraph would thus be increased from two to 12 days.

The time permitted for the circulation papers of an independent candidate has also been changed. The first day for circulating such papers is now the seventieth, rather than the sixty-fifth, day prior to the election, and the last day is now the forty-fifth, rather than the fortieth, day prior to the election (Elec. C. Sec. 3084). In those years in which only 63 days intervene between the elections, the first day for the circulation of such papers would be seven days before the primary. Therefore, if a candidate decided to await the outcome of that election before circulating his papers, he would lose seven days, which is a substantial amount of the 25 days allotted to him.

To summarize the problem: If the direct primary date is returned to the last Tuesday in August, an overlapping of 12 days will result between the canvass of the returns at the primary and the time required for the preparation of the general election ballots. In addition, in effect, the time allowed to an independent candidate to circulate his nomination papers would be substantially reduced.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

14680. If a member of this retirement system who is or has been a member of another retirement system ceases to be entitled to retirement benefits from the other retirement system for any service rendered after July 1, 1944, which qualifies for credit under this retirement system and for which he has not contributed to the Retirement Annuity Fund under Section 14478, but continues to be a

member of this retirement system, upon receipt of refund of his contributions to the other retirement system he shall deposit in the Retirement Annuity Fund an amount equal to the contributions which he would have been required to make during such service if he had not then been a member of the other retirement system, with interest from the first of the year next following the date on which such contributions would have been payable to the date the deposit is made at the current rate of interest credited to Retirement Annuity Fund contributions.

Unless such deposit is made within two years after the date upon which notice of the right to make such deposit is mailed by this system to the member's latest address on file in the office of this system and prior to retirement, the member shall not be entitled to benefits from the Retirement Annuity Fund based upon [salary earned in any] service *rendered* after July 1, 1944, for which he has not contributed to the Retirement Annuity Fund pursuant to Section 14478, and the [guarantee of a] minimum [annuity shall not apply] *retirement allowance applicable to such member shall be the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity which would have been the actuarial equivalent of such deposit.* If the deposit is made, the member's rate of annuity contribution shall be based on his age at the beginning of such service after July 1, 1944, or on a lower age, as determined under this chapter, because of other credited service.

SEC. 27. Section 14681 of said code is amended to read:

14681. Any person who enters or changes his status under this retirement system after July 1, 1944, and who thus becomes subject to the Retirement Annuity Fund and receives credit for service rendered after July 1, 1944, but prior to his entry into or change in status under this retirement system, shall deposit in the Retirement Annuity Fund an amount equal to the contributions he would have been required to make to the Retirement Annuity Fund during such service if he had then been a member of this retirement system and subject to said fund, with interest from the first of the year next following the date on which such contributions would have been payable to the date the deposit is made at the current rate of interest credited to Retirement Annuity Fund contributions.

Unless such deposit is made within two years after the date upon which notice of the right to make such deposit is mailed by this system to the member's latest address on file in the office of this system and prior to retirement, the member shall not be entitled to benefits from the Retirement Annuity Fund based upon [salary earned in any] service *rendered* after July 1, 1944, for which he has not contributed to the Retirement Annuity Fund pursuant to Section 14478, and the [guarantee of a] minimum [annuity shall not apply] *retirement allowance applicable to such member shall be the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity which would have been the actuarial equivalent of such deposit.* If the deposit is made, the member's rate of annuity contribution shall be based on his age at the beginning of such service after July 1, 1944, or on a lower age, as determined under this chapter, because of other credited service.

SEC. 28. Section 14683 of said code is amended to read:

14683. If a person who has been retired ceases to be entitled to benefits from a local retirement system, on account of which service was excluded in the calculation of such person's annuity, but who continues to be retired under this system, he shall be entitled to an annuity on account of such service, effective on the first day of the month in which he notifies the retirement board at its office in Sacramento. If within 90 days after said effective date, said person deposits in the Retirement Annuity Fund, an amount equal to the contributions which he would have been required to make to that fund during service rendered after June 30, 1944, if he had not then been a member of the local retirement system, less the portion of the annuity which would have been payable prior to said date, and an amount equal to which was not paid to the local district under Section 14565, with interest on the balance of the contributions remaining after deducting said portion as it would have been paid from month to month, from the first of the year next following the date on which such contribution would have been payable to the date the deposit is made at the current rate of interest credited to Retirement Fund contributions, the annuity shall be calculated with respect to all such service, in the same manner as if the person were retiring on said effective date. If deposit of such contributions and interest is not made, the annuity shall be calculated in said manner, but including only such service rendered prior to July 1, 1944, and the [guarantee of a] minimum [annuity shall not apply] *retirement allowance applicable to such member shall be the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity which would have been the actuarial equivalent of such redeposit.*

If a person after retirement becomes entitled to a benefit from a local retirement system, based on service which was included in the calculation of his annuity, the annuity shall be recalculated as the effective date of the person's retirement, excluding said service, and the reduced retirement allowance shall be effective on the day the benefit under the local system began to accrue. Annuity contributions made

on account of such service, plus interest and less the annuity paid to him on account of the contributions, shall be paid to him."

9856. A petition to form an improvement district shall be filed with the secretary of the district and may be inspected by all persons interested.
9857. Upon receipt of a petition to form an improvement district the directors shall cause a survey to be made of the proposed improvements, if any.
9858. If the survey shows that the improvements are feasible, the directors shall cause to be prepared the following:
(a) Plans and specifications of the improvements proposed to be constructed when the petition proposes the construction of improvements.
(b) An estimate of the cost of the proposed improvements, which may include an amount not in excess of 10 percent of the aggregate cost of the proposed improvements to create a reserve fund to be used and applied as additional security for the payment of principal of and interest on any warrants of the improvement district issued against assessments levied for the payment of the cost of the proposed improvements.
(c) Statement of the proposed assessment for the cost of the proposed improvements apportioned to each parcel of real property in the proposed improvement district as the parcels appear on the last equalized assessment roll and to district owned real property in the proposed improvement district whether or not it appears on the last equalized assessment roll, which assessment shall be apportioned in accordance with the assessed value of the real property, as such value is shown on the next preceding equalized assessment roll.
9859. If there are any, the plans and specifications, estimate of cost, and the statement of the proposed assessment shall be filed with the secretary of the district and may be inspected by all persons interested.
9860. After the filing of the formation petition, and if any, the plans and specifications, the estimate of cost, and statement of the proposed assessment, the directors shall give notice of a hearing upon the petition, and if a special assessment is to be levied in the improvement district pursuant to this chapter, the notice shall also state that the hearing is called to determine whether or not the special assessment should be levied.
9861. Notice of the hearing shall be given by all of the following:
(a) Posting a notice in three public places within the proposed improvement district.
(b) Publication of the notice once a week for two weeks in a newspaper published in the principal county of the district.
(c) Mailing a copy of the notice to the last known address of all of the owners of real property in the proposed improvement district to the addresses appearing in the petition.
The notices shall be posted and mailed not less than 20 days prior to the date set for the hearing.

9862. At the hearing the directors shall hear any objections coming before it to any of the following:

(b) The formation of the improvement district.

(c) The real property to be included within the improvement district.

(d) The plans and specifications.

(e) The estimate of cost.

(f) The proposed assessment.

(g) The apportionment of the assessment.

9863. At the hearing the directors shall make any changes in reference to the matters set forth in Section 9862 as they consider proper. The directors may exclude any part of the real property described in the petition from the proposed improvement district and may include additional real property.

9864. If any additional real property is included in the proposed improvement district, the hearing shall be continued and the owners of the added real property given personal notice of not less than 20 days of the addition of the land to the improvement district.

9865. The directors may include in the plans and specifications such terms and conditions as to the respective parcels of real property in the improvement district with respect to tolls, charges, assessments, or the conservation or use of soil and water or any other matters as the directors deem necessary or proper.

9866. Regardless of any findings made by the directors if more than one-third in number of the holders of title to the real property within a proposed improvement district object at the hearing to its formation or the levy of the proposed assessment, the directors shall deny the petition, and no further proceeding shall be had on it.

9867. If at the hearing the directors find that it would not be for the best interests of the district and the proposed improvement district to form the improvement district the directors shall order the proceedings dismissed without prejudice to their renewal.

9868. If the directors find that it would be for the best interests of the district and the proposed improvement district to form the improvement district, they shall make and enter in their minutes a final order:

(a) Approving the petition.

(b) Forming the improvement district.

(c) Levying the assessment if any is provided for and if the assessment is necessary.

(d) Apportioning the assessment, if levied, to the real property in the improvement district according to assessed value as shown on the next preceding equalized assessment roll.

9869. The order shall contain a description of the lands within the improvement district.

9870. The secretary shall cause a certified copy of the order creating the improvement district to be recorded in the office of the county recorder in each county in which any land of the improvement district is situated.

Article 2. Assessments

9875. Any assessment levied pursuant to Section 9868 shall include both of the following sums:

(a) An amount equal to interest on any deferred payments at a rate not exceeding 7 percent each year.

(b) An amount equal to 10 percent more than all other sums to be raised by the assessment, in order to provide for anticipated delinquencies.

9876. The assessment may be made payable in not more than 10 annual installments.

9877. The directors, on or before the fifteenth day of August of each year, shall furnish the auditor and board of supervisors of each county in which any portion of the improvement lies a statement in writing of the amounts of the installments of the improvement district assessment, if any, due for the next ensuing fiscal year in respect of each parcel of real property within the improvement district.

9878. Each annual installment of the improvement district assessments shall be collected by county officers in the same manner and at the same times as county taxes.

9879. The provision of law relating to the collection of county taxes and the duties of county officers with respect thereto, insofar as they are applicable and not in conflict with this chapter, are hereby adopted and made a part of this chapter. Said officers are liable on their several official bonds for the faithful discharge of their duties under this chapter.

9880. The treasurers of each of the counties, other than the principal county, shall, not less than twice a year or upon order of the directors, settle with the directors and pay to the treasurer of the principal county all money belonging to the improvement district and in their possession.

9881. The assessment and each installment of it shall be and remain a lien on the real property in the improvement district in the same manner as and in addition to the annual assessment of the district.

9882. Upon a change or resubdivision of any parcel of real property in an improvement district, the directors upon their own initiative or upon a petition of the owner of the parcel so changed or resubdivided, may reapportion the improvement district assessment upon the parcel, and the order of reapportionment shall be recorded in the same manner as the order levying the original assessment.

9883. If the actual cost of the improvements is substantially less than the estimated cost the assessment may be reduced proportionately on each parcel by recomputing it based on actual costs with the percentage and interest provided for in Section 9875 added thereto. The reapportionment or a statement that the assessment on each parcel has been reduced by a designated percentage shall be recorded in the same manner as the order levying the original assessment.

Installments of assessments levied on district owned real property becoming due while the real property is still owned by the district shall be paid by the district. Conveyance of such real property into private ownership shall not release the lien thereon of the assessment and the unpaid installments of it.

9884. If the assessments levied upon real property in an improvement district are insufficient to pay the cost of improvements or the warrants issued for the improvements, a supplemental assessment shall be levied upon all of the real property in the improvement district sufficient to pay the cost or the warrants.

9885. The procedure followed in making the supplemental levy shall be substantially the same as for making the original levy, except that no petition is required.

9886. Whenever it is desired to do additional work or acquire additional property in or for an improvement district, upon the petition of two-thirds in number of the owners of real property in the improvement district, an additional assessment may be levied substantially in the same manner as the original assessment.

Article 3. Inclusion of Land

9890. If at any time it is desired to include additional real property within an improvement district, a petition for inclusion signed by the owners of real property to be included may be filed with the directors.

9891. The inclusion petition shall describe the boundaries of the improvement district as enlarged by the proposed inclusions and give the names and addresses of the owners of the additional real property in substantially the same manner as in the original petition for forming an improvement district.

9892. The same proceedings shall be had on the improvement district inclusion petition as upon the original petition for the formation of an improvement district.

9893. The directors may prescribe any conditions upon the inclusion of the real property that they deem just.

9894. If any conditions not contained in the petition for inclusion are prescribed by the directors the real property shall not be included until two-thirds in number of the petitioners approve the conditions in writing.

Article 4. Improvement District Management

9900. In a district containing an improvement district the directors and all of the officers of the district each respectively has all the rights, powers, and privileges as to the improvement district, its real property, and the proceedings in relation to the improvement district that each respectively has for the district of which the improvement district is a part, including the right of the district to acquire, own, and hold property.

9901. The directors may also hold property used or acquired in connection with the improvement in the name of the directors and their successors in office as trustees for the improvement district.

9902. The directors of a district in which an improvement district exists may allow on terms that may be agreed upon any person to carry water through any conduit for the improvement of which the improvement district was formed and may cancel the right in the event that payments are not made in accordance with the agreed terms.

9903. The work of improvement provided for in this chapter and the purchase of all supplies, material, and equipment therefor shall be performed by the district, or in the discretion of the directors contracts may be made for the work and material after notice calling for bids, as prescribed by the directors.

9904. The directors may in lieu in whole or in part of levying assessments for the operation of improvement district works fix and collect reasonable charges for the use of water or for any other service furnished by means of the improvement district works.

9905. All such tolls, connections charges, and additional assessments shall be held and applied upon and reduce the last installment or installments of the improvement district assessment.

9906. The directors may provide for the maintenance and operation of the works of an improvement district from the funds of the soil conservation district in lieu of levying further improvement district assessments for such purposes.

9907. Notwithstanding any other provision of this code, the directors of a district in which an improvement district exists may establish facilities use charges for the use of the facilities in such improvement district and, in establishing such charges, may provide that water shall be furnished or delivered through such facilities only to

lands and real property in such improvement district in respect of which such facilities use charges or annual installments thereof, fixed as provided in this section, shall have been paid in advance. Such facilities use charges shall be in amounts equal to the respective amounts of the assessments theretofore levied against the real property in such improvement district for the purpose of providing such facilities. In establishing such charges the directors shall provide (a) that payment in full of any such assessment shall constitute payment in advance in full of such facilities use charge; (b) that all facilities use charges not so paid in advance in full shall be payable in annual installments, each such annual installment to be equal in amount to (i) the annual installment of the unpaid assessment theretofore levied against the real property in respect of which such charge is payable and due on or before the next succeeding November 20th plus interest thereon at the rate provided in the order levying such assessment plus 10 percent in addition (added for anticipated delinquencies), plus (ii) all delinquent annual installments, if any, of such unpaid assessment together with penalties and interest at said rate on such delinquent installments; and (c) that payment of any annual installment of any such facilities use charge shall constitute payment in full of the annual installment of such unpaid assessment due on or before the next succeeding November 20th and of all delinquent annual installments, if any, of such unpaid assessment.

9908. On behalf of an improvement district the directors may do any or all acts necessary or desirable to carry out the purposes of the improvement district, including, but not limited to any or all of the following:

(a) Acquire without cost to the United States such land, easements, or rights of way as will be needed in connection with improvements installed or constructed with the financial assistance of the United States;

(b) Assume such share of the cost of installing or constructing any improvements involving the financial assistance of the United States as are equitable in consideration of the anticipated benefits from such improvements;

(c) Defray the costs of operation and maintenance of such works of improvement in accordance with such terms as may be agreed upon;

(d) Acquire, or provide assurance that the district, the improvement district, or the owners of real property have acquired, such water rights as may be needed in the installation and operation of the work of improvement;

(e) Obtain agreements to carry out soil conservation measures and proper farm plans from owners of real property in connection with such a work of improvement.

9909. On behalf of an improvement district, the directors may cooperate and contract with the United States, or with any officer, department, bureau, or agency thereof, to accomplish any of the purposes of the improvement district, or to exercise any of the powers of the directors in relation to such improvement districts.

Article 5. Improvement District Warrants

9915. A district may issue improvement district warrants signed by its president and secretary in face amount not exceeding in the aggregate the cost of the improvements exclusive of interest and amounts paid prior to the issuance of these warrants on the assessment levied to pay for the improvement.

9916. Improvement district warrants shall be made payable in amounts and at the times corresponding substantially to the amounts and times of payment of the installments of the improvement district assessment.

9917. Improvement district warrants shall bear interest at the rate fixed at the time of the levy of the improvement district assessment, and the interest may be made payable semiannually.

9918. Coupons for the interest on these warrants may be attached to them.

9919. Improvement district warrants may be made payable to any of the following:

(a) Bearer.

9920. Improvement district warrants may be sold by the district for not less than par at either public or private sale.

9921. Any surplus funds and any money held by a district in a sinking or depreciation fund may in the discretion of its directors be invested in the warrants of any improvement district within the district.

9922. Except as otherwise provided by law, the cost of constructing, acquiring, or improving works of an improvement district shall be paid only out of the proceeds of an improvement district assessment levied upon and collected from the real property in the improvement district for such purposes.

9923. Improvement district warrants shall be paid only out of the proceeds of an improvement district assessment levied upon and collected from the real property within the improvement district for improvement purposes.

9924. Improvement district warrants or their proceeds shall be used solely for making the improvements for which the improvement district was formed and the necessary incidental expenses.

Article 6. Advance Payment of Assessments

9930. At any time before improvement district warrants are issued, the amount of any improvement district assessment on any real property, exclusive of interest and the 10 percent added for anticipated delinquencies, may be paid in money to the treasurer of the principal county of the district.

9931. Real property on which the amount of the improvement district assessment has been paid pursuant to Section 9930 shall not be subject to the annual installments of the assessments levied for the purposes of the improvement, but it shall be and remain liable for any assessments levied for operation and for any supplemental or additional improvement district assessments levied.

9932. Any owner of real property of an improvement district who desires at any time to lessen or remove the lien upon his real property of any improvement district assessment may deliver to the treasurer of the principal county for cancellation warrants payable out of the assessment.

9933. The directors may require warrants delivered to lessen or remove an improvement district assessment lien to be substantially of the average maturities of the issue of warrants.

9934. The treasurer of the principal county shall notify the directors of the amount of the principal and interest due and to become due on the warrants delivered for cancellation. The directors shall thereupon cause the proper cancellation and proper record and credit to be made against the improvement district assessment on the real property of the person delivering the warrants.

Article 7. Actions and Proceedings

9940. All acts, proceedings, conclusions, and findings of fact, including the levy of an assessment, by the directors of a district concerning an improvement district therein shall be conclusive except in an action or proceeding instituted within six months after the acts, proceedings, conclusions, or findings were had or made.

9941. The directors of a district in which an improvement district is located may, at any time after the levy of any assessment or the issuance of any warrants for the improvement district, bring an action to determine the validity of the assessment or the issuance of the warrants in the same manner and with the same effect as provided for the determination of the validity of bonds and assessments of irrigation districts.

9942. No irregularity or omission not affecting the substantial rights of the owners of real property within an improvement district shall affect the validity of any act done or proceeding taken in relation to the improvement district.

Article 8. Dissolution of Improvement Districts

9950. At any time prior to the incurring of any indebtedness or upon the full payment of all indebtedness of an improvement district, a petition, signed and acknowledged by not less than the number of owners of real property constituting the improvement district required to sign a petition to form the improvement district, may be filed with the directors requesting that the improvement district be dissolved.

9951. A hearing on dissolution shall be had in the same manner and after the same notice as is required for the formation of an improvement district.

9952. The directors may, after the hearing, order the improvement district dissolved.

A redevelopment plan may, if the agency deems it feasible, provide for participation in the redevelopment of property in the project area by the owners of any property which, under the plan, is found susceptible to the use or reuse by such owners if the owners agree to use such property in accordance with the redevelopment plan and to appropriately subject any such property to the use or reuse required by the redevelopment plan. In such cases the redevelopment plan shall specify the terms and conditions under which owners may participate in the redevelopment of any such project area. Such plan may also, if the agency deems it feasible, provide that an owner whose property is acquired by the agency shall be afforded an opportunity to obtain by purchase, lease, exchange, or otherwise, property to be disposed of by the agency for use in accordance with the redevelopment plan, but such disposition shall be concluded only after a public hearing by the agency pursuant to the provisions of this part for the disposition of property by an agency.

SEC. 4. Section 33703 is added to said code, to read:

33703. A redevelopment plan for a project area shall conform to the master or general community plan insofar as the latter applies to the project area. The agency shall consult with the planning commission of the community in formulating redevelopment plans. A redevelopment plan for a project area shall be based upon the approved tentative plan, but any amendments to a redevelopment plan pursuant to Section 33747 need not be based on the approved tentative plan.

SEC. 5. Section 33747 is added to said code, to read:

33747. If at any time after the adoption of a tentative or redevelopment plan for a project area by the legislative body, it becomes necessary or desirable to amend or modify such plan, the legislative body may amend such plan upon the recommendation of the agency.

Before recommending amendment of the plan the agency shall hold a public hearing of the proposed amendment. Notice of such hearing shall be published once a week for three successive weeks prior to the date of hearing in a newspaper of general circulation, printed and published in the community, or if there is none,

in a newspaper selected by the agency. The notice of hearing shall include a legal description of the boundaries of the area designated on the plan to be amended and a general statement of the purpose of the amendment. Copies of the notices shall be mailed to the last known assessees of each parcel of land within such boundaries, at his last known address as shown by the records of the assessor for the community, and to persons, firms, or corporations which have acquired property within such boundaries from the agency, at his last known address as shown by the records of the agency. If after the public hearings the agency makes substantial changes in the plan which affect the master or community plan adopted by the planning commission or the legislative body, such changes shall be submitted to the planning commission for its report and recommendation to the legislative body within 30 days after such submission.

After receiving the report of the agency concerning such changes in the plan, and not sooner than 30 days after the submission of changes to the planning commission, the legislative body shall hold a public hearing on the proposed amendment, notice of which hearing shall be published in a newspaper in the manner and at the times designated above for notice of hearing by the agency. If after such hearing the legislative body determines that the amendments in the plan, proposed by the agency, are necessary or desirable, the legislative body shall adopt an ordinance amending the ordinance adopting the plan thus amended.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At the present time the law provides no method for amending a redevelopment plan after it has been officially adopted. In many communities of the State in which redevelopment plans have been adopted there is an urgent need for an amendment to a portion of such redevelopment plan in order to more adequately meet the needs of the community. In order to expedite the orderly redevelopment of blighted areas necessary for the public health, safety and welfare of this State, it is necessary that this act take effect immediately."

Amendment No. 8

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Public Health and Safety.

SENATE, CALIFORNIA LEGISLATURE
May 16, 1955

SECRETARY'S REPORT ON CONDITION OF FILE

Hon. Harold J. Powers
President of the Senate

DEAR MR. PRESIDENT: Today is the ninety seventh calendar day. We have 23 calendar days remaining. Assuming that we will meet on Saturdays but not on Sundays, we have 20 days remaining on which to enact legislation.

We have today sent to enrollment 908 measures as against 967 measures on the corresponding legislative day of 1953. Following our assumption that the work will be as heavy this session as last, we still will have to act upon 1,422 measures, or an average of 72 per day in order to complete our work on June 8th, the 120th calendar day.

This means an average of about 85 roll calls per day from now until the end of the session, including concurrences in Assembly amendments, adoption of urgency clauses and adoption of conference committee reports. Friday, May 13th, was our best day this session in the accomplishment of legislative work. The Journal of that day registers 84 roll calls.

If we can transact the same amount of business every day for the next 19 days, we should be able to avoid the unfortunate experience of the last day of the 1953 Session which recorded a total of 214 roll calls, many of which were taken by the most expeditious conceivable method.

Respectfully submitted,

J. A. BEEK, Secretary of the Senate

It is declared that all property within a given zone is equally benefited under this act.

Said taxes or assessments shall be levied and collected together with, and not separately from, taxes for county purposes, and the revenues derived from said taxes shall be paid into the county treasury to the credit of said district, and said board of supervisors shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any of the several zones from the taxes or assessments levied under the provisions of subdivision 2 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone except as provided in Section 14 hereof; and provided further, however, that the aggregate taxes or assessments levied under this act for any one fiscal year shall not exceed twenty cents ($0.20) on each one hundred dollars ($100) of the assessed valuation of the taxable property in said zones exclusive of any tax or assessment levied to meet the bonded indebtedness of said zones *or district* and the interest thereon.

SEC. 2. Section 12a is added to said act, to read:

Sec. 12a. The provisions of this act concerning the levy and collection of taxes shall be construed to mean that all proceedings in connection with the preparation and adoption of a budget for the district may be done and taken in conjunction with the preparation and adoption of the budget for the County of Ventura except that the resolution adopting the final budget for the district shall be adopted by the Board of Supervisors of the Ventura County Flood Control District. SEC. 4. Section 20 of said act is amended to read:

Sec. 20. [The provisions of law of this State, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof.] *So far as they are applicable and not in conflict with the specific provisions of this act, all matters relating to taxes and assessments levied pursuant to this act are to be governed by the laws of this State relating to county property taxes and the duties of the several county officers with respect thereto.* Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act.

SEC. 5. Section 35 is added to said act, to read:

Sec. 35. Notwithstanding any other provisions of this act, bonds may be issued by the Ventura County Flood Control District as a unit and without regard to zones to finance any project for importing water into the district for the benefit of the entire district. Said bonds shall be authorized and issued in the same manner and form and with the same effect and the proceeds shall be subject to the same restrictions as provided in Sections 15, 16, and 17 of this act for the issuance of bonds for any zone, except that it shall be sufficient to do anything required to be done by said sections as though the entire district constitutes but one zone. The form of the bond need not designate any participating zone but the bonds shall be issued in the name of the district.

Before any resolution required by the provisions of subdivision (1) of Section 15 is adopted, there shall first be on file in the office of the board of supervisors a report or reports from engineers showing the matters specified in subdivisions 1, 2, 3, 4, and 5 of Section 10 of this act, and if the project is undertaken or is to be undertaken in conjunction with or in cooperation with other public or private bodies, a general statement of the financing plan of the entire project shall likewise be on file. The resolution shall state that such report or reports are on file and shall refer to it or them for further particulars. The provisions of Section 21 of this act shall apply to bonds issued pursuant to this section and the provisions of Section 25 of this act shall apply to any issue of additional bonds under this section.

Any bonds issued under the provisions of this act shall be a lien upon all but only the taxable property in the district, and the lien for the bonds of any issue shall be a preferred lien to that of any subsequent issue. The board of supervisors shall levy a tax or assessment each year upon all of the taxable property in the district sufficient to pay so much of the interest upon said bonds for that year and such portion of the principal thereof as is to become due before the time for making the next general tax levy which will not otherwise be paid out of other funds. Such tax shall be levied and collected in the district together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said Ventura County to the credit of the district, and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the County Treasurer of said Ventura County in the manner provided by law for the payment of principal and interest on bonds of said county. Any funds of the district received from the sale of water imported as the result of the construction of any project by the expenditure of money raised by the sale of bonds issued in accordance with this section or by the sale or rental of any property purchased or constructed through the expenditure of any money raised by the sale of bonds issued in accordance with this section may be applied toward the payment of the principal and interest on said bonds without, however, causing said bonds to be or to become revenue bonds. Taxes or assessments levied pursuant ot the provisions of this section are declared to be for the common benefit of the district as a whole and it is further declared that all property within the district is equally benefited by any action taken under the provisions of this section.

Should a proposition for issuing bonds for the district submitted at any election under this section fail to receive the requisite number of votes of the qualified electors voting at such election to incur the indebtedness for the purpose specified, the board of supervisors of said district shall not for six months after such election call or order another election in the district for incurring indebtedness and issuing bonds under the terms of this section."

This section shall be retroactively applied to extend the right of re-entry into public office or employment to public officers and employees who resigned prior to its effective date.

This section does not apply to any public officer or employee to whom the right to re-enter public office or employment after service in the armed forces has been granted by any other provision of law.

If any provision of this section, or the application of this section to any person or circumstance, is held invalid, the remainder of this section, or the application of this section to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

19390. Any permanent or probationary state civil service employee in good standing who enters or enlists in the recognized military service of the United States has an absolute right to be restored to his former position and civil service status or a position in his former class, such reinstatement to be made to the same office, board, commission, agency, or institution, and in the same locality with the same civil service status formerly had by him, upon application by him to the board within six months after the termination of such military service, but not later than six months after the Governor terminates the state military emergency [or, where the employee has enlisted, not later than six months following the term of the enlistment, excluding any extension thereof,] or, in either case, within six months after any rehabilitation afforded by the United States or the State following such military service*; provided, that such right of reinstatement shall not extend to or be granted to such employee, who after January 1, 1956, voluntarily requests and obtains an extension of his original term of enlistment, service, or tour of duty in the recognized military service of the United States.* If no position exists in the same locality, the board may reinstate the employee on his request, to a position in the same class in the same office, board, commission, agency, or institution, in some other locality.

19394. A person in recognized military service whose name was high enough on a regular permanent employment list to be available for certification for possible permanent appointment to a position while he was in the armed forces of the United States shall retain his place on the list for three years following the date of his release from military service or until six months after the termination of the state military emergency, whichever is the earlier date. *Provided further, that a name shall not be retained on a list for longer that eight years after the date the list was established.* The name of a person whose eligibility is retained under the provisions of this section beyond the time other names are removed from a list as provided in Section 18901 shall be certified ahead of the names of persons on more recently prepared lists, except that the name shall be removed from the list if he refuses or has refused to accept appointment to a permanent position after certification thereto subsequent to his release from the armed forces. *This section does not apply to an individual who enters or enlists in the recognized military service of the United States and who after January 1, 1956, voluntarily requests and obtains an extension of his original term of enlistment, service, or tour of duty in such service.*

19401.1. When any person completes successfully part of an open or promotional examination [held after January 1, 1946,] but was unable to complete all portions thereof because of entry into recognized military service, the board shall arrange for him to take such uncompleted portion of the examination, providing application is made not later than six months after his release from military service. *Such right to complete an examination shall not continue for longer than five years after the date of the examination.*

If the applicant passes the examination, his name shall be placed on the eligible list that resulted from the original examination as the list stands at the time his name is placed thereon. Notwithstanding the removal of names from the original list pursuant to Section 18901, the eligibility shall be established; provided, his rating is sufficiently high for his name to have been included on a certification to a permanent position while he was in the military service had his name been on the list when originally established. He shall retain his place on such list for three years from the termination of his service with the armed forces or one year from the date such eligibility is established, whichever is the later date. A name thus retained on a list, beyond the time other names are removed from the list pursuant to Section 18901, shall be removed if the person refuses to accept appointment to a permanent position after certification thereto subsequent to his discharge from the armed forces.

This section does not apply to a person who enters or enlists in the recognized military service of the United States and who after January 1, 1956, voluntarily requests and obtains an extension of his original term of enlistment, service, or tour of duty in such service.

SEC. 6. Section 19403 of said code is amended to read:

If the applicant passes the examination, his name shall be placed on the eligible list that resulted from the original examination as the list stands at the time his name is placed thereon. Notwithstanding the removal of names from the original list pursuant to the provisions

of Section 18901 of the Government Code, the eligibility shall be established; provided, his rating is sufficiently high for his name to have been included on a certification to a permanent position while he was in the military service had his name been on the list when originally established. He shall retain his place on such list for three years from the termination of his service with the armed forces or one year from the date such eligibility is established, whichever is the later date; provided, his rating is sufficiently high for his name to have been included on a certification to a permanent position while he was in recognized military service had his name been on the list when originally established. A name thus retained on a list, beyond the time other names are removed from the list pursuant to the provisions of Section 18901 of the Government Code, shall be removed if the person refuses to accept appointment to a permanent position after certification thereto subsequent to his discharge from the armed forces.

SEC. 7. Section 19404 of said code is amended to read:

19404. If, while a civil service employee was on military leave, a promotional examination was held [after January 1, 1946,] which he would have been entitled to take had he continued to hold the position last held prior to entrance into recognized military service and not been on military leave, such employee shall be eligible to take the identical promotional examination, and the board shall arrange for him to take the examination within a reasonable time providing application is made not later than six months after his [return] *reinstatement* from military leave. *Provided, further, that the right to have an examination reopened shall not continue for longer than five years after the date of the examination.* If the employee qualifies in the examination, his name shall be placed on the open and promotional list that resulted from the original examination as the list stands at the time his name is placed thereon. Notwithstanding the removal of names from the original list pursuant to Section 18901, the eligibility shall be established; provided, his rating is sufficiently high for his name to have been included on a certification to a permanent position while he was in the military service had his name been on the list when originally established. He shall retain his place on such list for three years from the termination of his service with the armed forces or one year from the date such eligibility is established, whichever is the later date. A name thus retained on a list, beyond the time other names are removed from the list pursuant to the provisions of Section 18901, shall be removed if the person refuses to accept appointment to a permanent position after certification thereto subsequent to his discharge from the armed forces, or if he resigns from state service.

The authority may authorize the department to operate a toll bridge, ferry, tube, or other toll highway which has been acquired, with the personnel theretofore employed thereon, until such time as the authority and the department in their

discretion deems it necessary or desirable to discontinue operations, in which event the authority shall authorize and direct the department to discontinue the toll bridge, ferry, tube, or other toll highway and pay the personnel thereof one month's severance pay for each year of service with the ferry up to 15 years.

(c) At the discretion of the awarding authority, after public hearing, where no bids were submitted to the successful prime contractor in accordance with the provisions of this chapter covering that portion of the work which the contractor proposes to sublet.

The record of a conviction of such a violation is conclusive evidence of grounds for such action. A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge of such a violation shall be deemed to be a conviction within the meaning of this section. The registrar may, upon his own motion, and shall, upon the verified complaint of any person, investigate any alleged violation of said chapter and, upon the finding of such violation, shall institute disciplinary proceedings.

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1971.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 4, 1955

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 1971, "An act to add Sections 197.5 and 2107.5 to, and to amend Section 2108 of, the Streets and Highways Code, relating to the allocation and expenditure of funds for city street purposes,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

It is necessary to provide for the allocation of funds from the Highway Users Tax Fund for expenditure for engineering costs and administrative expenses in respect to city streets in order to enable cities to proceed without delay with their engineering in preparation for construction and improvement.

I therefore recommend consideration of Senate Bill No. 1971 as an emergency measure.
